P. J. Lilly has purchased the east half of block 12 in Wisdom addition of the La Grande Investment company and will build new modern cottages as soon as the weather permits. Some days ago The Observer announced the sale of some lots by the same firm to W. H. Scull. Today he gives out the information that the report in the paper immediately brought inquiries concerning these houses, and that he has one of the

houses rented before a stone in the foundation has been laid. There are other indications that this year will see more building than in any previous year. A number of houses are in course of construction in spite of the weather and the opening of spring will see a great deal of activity.
