

BUSINESSMEN ON THEIR WAY

NINETEEN LEFT LAST NIGHT AND TODAY.

Total of About Thirty to Make up Party at Portland Tuesday.

Nineteen business men left last night and this morning for Portland to commence their annual junket to Western Oregon. The stormy weather prevented one or two from going but on the whole, the list prepared some few days ago was kept intact. The junket proper commences at Portland tomorrow morning when the crowd will keep together and travel by special car, going to Albany via Salem and the Salem senate and house, going on to Corvallis later. Most of the men anticipate to return to La Grande about next Saturday.

Several business men had gone to Portland previously and join the party at Portland so that the original list of 30 will be in the party.

STANCHFIELD PRODUCE CO. SOLD

Dave Clark and W. A. Snook Purchase Retail Produce Company.

D. M. Clark and W. S. Snook today purchased the Waters-Stanchfield Produce company through the Geo. H. Currey real estate agency. Dave Clark, having just retired from the office of county commissioner, and Mr. Snook who is a well known pioneer of this valley are both well fitted to continue the success of the firm.

Mr. Stanchfield was forced to sell through serious sickness and will probably move to some other locality in the future. Mr. Stanchfield moved to La Grande about three years ago and has been prominently connected with commercial and social activities all the while. He has built up a profitable business within this time and regrets very much to be forced to sell. His many friends will be sorry to learn of his intention of leaving, and wish him a speedy recovery from his present illness. The new owners will assume control in a few days.

Elgin Store Burns.

Floyd D. Evans was in the city with his father J. T. Evans to secure medical attention for the injured hand of Floyd. In a recent fire which destroyed the clothing establishment of J. B. Johnston of Elgin the son had the misfortune to have his hand severely burned. He states that the fire was under control 15 minutes after the water was made to play on the flames but that the entire stock was ruined. The stock was heavily insured.

MONEY MAKING INVESTMENTS

"By buying slightly deteriorated property, repairing it, improving its appearance, and then selling at a material advance I earned my start in the financial world." Thus spoke a man who has made much money by dealing in real estate.

The modern world is becoming intensely practical, yet the esthetic still plays an important part in even our business transactions. The neatness, the cleanliness, the beauty of a thing appeal far stronger than the practical value. All things in regard to utility being equal, the most attractive will gain the preference every time.

This material age even directly develops an improved esthetic sense. The most useful is that which is plain, and regular, and clean. Order, not confusion, is the goal of intelligence. That which is irregular, fancy---and therefore liable to be unsanitary---is the refuge of legions of microbes.

An old "shack," cleaned, papered, repaired, the lawn improved, the roof repaired, and the foundation strengthened makes a more attractive home than a modern house that has been neglected and allowed to deteriorate.

You can do what the man did, if you will. You can make a start, or increase what you have by dealing right here at home. La Grande is the nucleus as well as the object point of several heehives that are going to stir things up in this section before long. We have many bargains for sale in homes that are in good condition, and with a little paint and some soap and water they can easily be transformed into an inviting home that will sell at a substantial advance.

Why not investigate our lists and see if you can not find a good investment or a desirable home for yourself?

What's a Dry Tumbler?

A "Flip-Flop" Artist that Wants a Drink?

That would be one kind, but ours is a machine that weighs 2 tons. It has a large cylindrical wire basket into which the benzine washed garments are put. A rapidly revolving fan blows heated air through garments as the cylinder revolves slow and "tumbles."

In a few minutes the last sniff of "That Horrid Gasoline Smell" disappears and the garment is CLEAN AND ODORLESS.

It costs more to install a TUMBLER than stretch a clothesline in the back yard, but you will appreciate the difference in service.

We expect to start our Day Cleaning and Pressing Plant Wednesday.
