HEACOCK'S GLASSES FIT.

Winter seems to be the time when
most people who have irregularities
in their system which cannot be re-
moved by the ordinary medicines; lie
to the hospital where the knife is
resorted to. At the present time the
Grande Ronde hospital is full to the
top. The rapid increase in popula-
tion is taxing the facilities of the
hospital and ere long La Grande will
be confronted with the necessity of
building new additions to the pres-
ent building. There is some talk of
this and there is no doubt about the
need for more room. Most of the
patients in the hospital now have un-
dergone the knife. There have been
no emergency cases for a week or
more.

DEMONSTRATOR HERE

Vacuum Worker to Be Explained by
Large Crew of Men.

A. T. Cope, a well known business
man of Walla Walla, Wash., has op-
ened an office in the new Foley build-
ing where he will spend the next few
weeks in demonstrating the "vacuum
washer" which he is handling. Mr.
Cope was formerly a prosperous real
estate man of Walla Walla but he
seems to think that the need of wash-
ing machines is more keenly felt than
that of real estate, as he has discon-
tinued his former pursuits and is de-
voting his entire time to the distri-
bution of the former.

Mr. Cope evidently intends to do
business on a large scale as he is ac-
companied by a number of sub-agents
and is securing several local solicitors
to aid him while here.
