QUALITY—The All Important Factor.

People living on West Adams avenue report a campaign of dog poisoning in progress and warning is given to all who have dogs they wish to save that protection should be given by keeping the dogs penned or tied. Just who is guilty of this nefarious act of putting out poison there is no evidence to indicate at present, but certain it is the guilty one will be found and proper prosecution will then follow. The dangers of strewing poison around a community are so great that the authorities will not put up with such actions.

When You Think of Drugs Think of Us

It is always flattering to a store to have many regular customers. People who come repeatedly must have confidence.

A large percentage of our business comes from regular customers who trade here year in and year out. They know our methods are right and that they will always be treated as we would like to be were we the buyer instead of seller. Why not make this your regular trading place for drugs and medicines.
