HOW TO WIN BALL GAMES

As Willie Keeler once advised: "Hit 'em where they ain't." Not so easy to do, but you have the edge when you use the Spalding Cork Center Ball. It gets that old "zip" to a hit that often means a few feet further in distance and— "Safe!"

The Spalding Official National League Cork Center Ball, price \$1.25, is the official ball of the world series for twenty years.

The Heaviest American Brain. Dr. Edward A. Spitzka, the brain specialist, credits the late Edward H. Knight with having the heaviest American brain on record. Mr. Knight was well known in Washington and was a patent attorney of note. At the time of his death his brain weighed 1.814 grams. General Benjamin F. Butler had a brain which weighed 1.753 grams, the next heaviest recorded, according to Dr. Spitzka. The heaviest brain on record anywhere in the world is given as that of the Russian poet and novelist, Turgenev, which tipped the scales at 2.012 grams.

Sand Cure For Fatigue. One of the most efficacious cures for fatigue from overwork consists in walking barefoot in sand. The nerves of the sole and heel are slightly irritated by coming in contact with the grains and accelerate the circulation of the blood in all parts of the body. The effect produced is highly invigorating. Besides this, the monotony of an ample extent of yellow sand exercises a soporific effect on the brain which induces sleep.—Exchange.

The Sponsor. "Say, you told me Balleigh was married and had a large family, and I find him to be a confirmed bachelor." "He is, in a manner of speaking, but he is wedded to his art, and he has a large family of unpaid bills. Why, man, I stood for most of them."—New York Times.

Modern Cleverness. "There goes one of our cleverest men." "Why clever?" "Well, he's done all his stealing legally."—Detroit Free Press.

Silk Producing Insects. There are more than 200 species of silk producing insects, though very few of these are of any practical value to mankind.
