BITULITHIC PAVING TO BE LAID AT VICTORIA, B. C.

One of the leading cities of the northwest to lay bitulithic this season is Victoria. Much work will be done and many streets which have heretofore presented an unsightly appearance will soon help to increase the beauty and attractiveness of Victoria.

After a thorough investigation, it was decided to use bitulithic on account of the fact that it is not only serviceable and admirably adapted to every day traffic conditions but because it will last for years without repairs.

It is exceedingly annoying to residents to have a street either worn out in places or torn up for repairs, as well from the standpoint of convenience as financially. For that reason, bitulithic which has made an excellent record in other cities was chosen.—Adv. 4-4-1t

Deadly Venom of the Cobra.
A full sized cobra is able to inject enough venom at a single full and complete bite to kill about twenty men. The Indian cobra yields as much as twenty drops, and Dr. Hauna mentions having obtained as much as twenty-eight drops.

In experiments with the venom of the cobra F. W. Fitzsimons, an expert, found that one drop diluted in a little water and injected into the tissues of the leg of a large monkey killed it in half an hour's time. A fraction of a drop was sufficient to kill a rat and a fowl within an hour. Judging from the effects of cobra venom on the higher animals, Mr. Fitzsimons considers that one full drop is a fatal dose for a strong, healthy man.—Westminster Gazette.

Walnuts, Five a Penny.

From one of Steele's letters to his wife we learn the price of walnuts in Queen Anne's reign. "I send you seven pennyworth of walnuts at five a penny, which is the greatest proof I can give you at present of my being with my whole heart yrs."

Outside the letter Lady Steele has written, "There are but 29 Walnuts," so apparently her "passionate lover and faithful husband" had given in to the temptation of eating a few before sending them. He made ample amends for this on the following day by a gift "half a hundred more."—London Standard.

RED TAPE AND A BATH.

Curious Experience of a Visitor in a Little French Town.

St. Lo, a little town in the Manche department in France, has no public bath house such as those found in most French towns and cities, for the private bath in France is yet as it were, in its infancy. The youngsters of the town bathe in the Vire, but the 12,000 other inhabitants think themselves above such a thing as a bath. Visitors can get a bath, it is true, but they must order four liters of water, all that they are permitted, and it is taken to them.

Not long ago a visitor in the town wished to take a bath. He went to the hospital to ask permission to take a bath there, as in Brittany this is the custom in towns where there is no public accommodation. The visitor's request was received rather coldly, and he was told that he would have to make his request in writing to the directors of the hospital. This he did and patiently awaited a response. None came, and the visitor left town.

Two days later the response came and followed him from town to town throughout France, not catching up with him until he had returned to Paris.

The response was as follows:

"M. — is exceptionally authorized to take a bath at the hospital on condition that he is able to justify by a medical ordinance that this medication is necessary to his state of health."—Exchange.

A Gentle Rebuke.

Lady Dorothy Nevill in her reminiscences relates how Queen Victoria once rebuked a certain mistress of the robes for unpunctuality. A day and hour had been appointed for a public ceremony in which the queen was to take part. The hour had arrived, and of all the court the duchess alone was absent. The queen gave vent more than once to her impatience, and at last, just as she was about to enter her carriage without her first lady of honor, the duchess in breathless haste made her appearance, stammering out faint words of excuse. "My dear duchess," said the queen, smiling, "I think you must have a bad watch," and she unlocked from her neck the chain of a magnificent watch which she herself wore and passed it round the neck of the offender.

How Some Turks Tell Time.

Though comparatively few of the natives of Turkey own watches, yet they have an ingenious way of approximating the time, and some of them hit it with considerable accuracy. They locate two cardinal points of the compass and then, holding their hands together in such a manner that the forefingers point upward and in opposite directions, they observe the shadow cast. In the morning or evening at certain known hours one finger or the other will point directly at the sun. A comparison of the two shadows will determine the hours between.

A Case For Sympathy.

"I have three children who are the very image of myself," said Jones enthusiastically.

"I pity the youngest," returned Brown quietly.

"Why?" asked Jones.

"Because he is the one who will have to resemble you the longest," said Brown.—London Tit-Bits.

Both Satisfied.

"I should like to break it off, but I can't bear to give up this diamond ring."

"Then why don't you tell him so? He told me he'd be willing to lose the ring if he could get out of the engagement."

The Parting.

Aunt (to engaged niece)—So Henry went away yesterday, I hear. Parting is very painful, isn't it? Niece—I should say so. Every rib in my body is aching today.—Pileusde Blatter.

Your Child's Health, Your First Thought

If you have children, naturally your first thoughts are for their health. You certainly want them to develop strong, healthy constitutions. The most careful attention must be given when children show the first symptoms of the many common ailments. Perhaps they are weakly and thin, or grow too fast, thus sacrificing strength. These and other apparently minor ailments may be the forerunner to a weak constitution for life.

Such children need Jayne's Tonic Vermifuge, which is essentially a children's tonic. First of all, it will properly care for the child's stomach. It will also improve the appetite, and will strengthen the other organs of the body. In cases of thin or impure blood, it increases the number of red corpuscles, enabling the enriched blood to keep the body healthy and strong.

Among the most common ailments that children develop is that of a disordered stomach, leading to an impaired digestion. In many cases this trouble is due to parasites in the intestinal tract. To correct such trouble, Jayne's Tonic Vermifuge is unsurpassed.

For more than eighty years millions of children have been restored to health through the use of this tonic. Insist upon Jayne's; accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.
