## FIRE BLIGHT

(Continued from Page 1.)

cent. of that acreage, and by using the same means can accomplish the same ends with much less cost.

Our apples and pears will soon be in bloom, and with the large number of old blight cankers from last year the blight will be thoroughly distributed by bees and other insects into practically all the orchards. And \$100,000 will not repair the damage that will be done in the next month by this sleepy, inactive, listless, careless and indifferent policy. If our fruit inspector will employ 20 active men, and put them in charge of some intelligent superintendent who knows fire blight when he sees it, and will work in harmony with the orchard growers for the next ten days or two weeks, this disease can be controlled. But every day now is worth thousands of dollars, in that if properly used will prevent that damage. Is it not possible that our officers, whose business it is to look after this thing, can be induced to do what the law requires them to do, and for which the public pays them? Respectfully,  
TURNER OLIVER.

## NOW SOLD IN AMERICA

In Less Than Five Years, Parisian Sage, the Splendid Hair Tonic, is Sold All Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years. And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask the Newlin Drug company about it, they will tell you that they rigidly guarantee it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by druggists everywhere, and by the Newlin Drug company for 50 cents a large bottle.
