Your Declaration Of Independence Have You Made It?

You are the master of your own fate. What is it to be—dependence, poverty and misery, or independence, prosperity and happiness? It is up to you.
Remember there are many degrees between any two extremes. You say you could be in a worse condition. True enough. But are you getting the most out of life? That's the question.
Undoubtedly not, unless you belong to the Home Owners Fraternity. Whether it be a city residence, a suburban tract, or a country farm there is nothing in life equal to owning your own home. Why? Independence from the landlord, happiness in his security, development thru the responsibility due to increased capital, property created by an inspiring environment—all these belong to the man who owns his own home, and to him only.

QUALITY GROCER

money if Foley's Honey and Tar Compound fails to cure your cough or cold. John Berner, Tell, Wis., states: "I used Foley's Honey and Tar Compound for five years, and it always gives the best of satisfaction and always cures a cough or cold." Refuse substitutes. For sale by A. T. HILL.

Now Sold in America

In Less Than Five Years, Parisian Sage, the Splendid Hair Tonic, Is Sold All Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years. And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask the Newlin Drug company about it, they will tell you that they rigidly guarantee it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

But one thing that has made Parisian

Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints.

Sold by druggists everywhere, and by the Newlin Drug company for 50 cents a large bottle.

INTEREST IN THE SESSION.

For the First Time in Many Years Democrats Control.

Elements in the extra session of congress are unusual. President Wilson has called the great body together at a time when his party has absolute control of every branch of the government relating to legislation.

This has not been the case before in twenty years. During that period of long ago when the Democrats were in power President Cleveland called an extra session, but the conditions were vastly different from now.

The extra session under President Wilson is remarkable because the lawmakers to a large extent are men of comparatively recent rise to prominence. Because of the fact that the Democratic party is providing a change from Republican rule for the first time in sixteen years great interest is centered upon the doings of congress.

Virtually a new generation of legislators has sprung up. With but a very few exceptions there are no men who figured in congressional doings of twenty years ago who are sharing the responsibilities of the body now.

Of only one thing has the public been absolutely certain, and that is that the tariff would be first and foremost among the subjects for work by the legislators, and that revision downward would be the purpose. The legislators themselves have not known just how the revision is to be managed, and it has been well understood that they would not all be pleased over all the details of the ultimate changes. The subject has been thrashed over so often and earnestly that its intricacies have become feared.

The ways and means committee, which has had the task of drafting the tentative form of the new tariff measure, has been unable to announce completion of its work in advance of the extra session, but the probability is that the measure will be taken up schedule by schedule.

The public has been led to expect that after the tariff is disposed of congress will consider currency, the income tax, Philippine independence and the Panama tolls questions.

Much publicity has been given to the proposed national income tax. The tax will probably apply only to incomes of over \$5,000 annually. Certain members of congress hold that this sort of levy would be confined to but a comparatively small proportion of the public and that the revenue would not be sufficient. They argue that an inheritance tax should be added to insure the need of revenue.

German Gleanings.

There are in Germany more than 10,000,000 milk cows.

Germany's foreign trade last year exceeded \$1,689,000,000.

State relief is sometimes given in Germany to sailing vessels for loss of finishing gear when necessity is proved.

Emperor William is said to be planning to retire most of the veteran German army staff officers, intending to replace them with younger men. The veterans will be pensioned.

Matters Mexican.

A man is always "president ad interim" or "pro tem." in Mexico.—Philadelphia Inquirer.

At least Mexico is an ideal republic to the extent that any man in it may aspire to be president.—Cleveland Leader.

Porfirio Diaz will come back from Europe if his country needs him. If his family needs him he had better stay where he is.—Kansas City Journal.

Aerial Flights.

There are 5,800 licensed air men in the United States.

In addition to its aeroplane fleet the French army will be equipped with a squadron of swift dirigible balloons that will carry machine guns.

Added strength and safety are claimed for a new English material for aeroplane wings made of fine mesh steel gauze coated with a preparation to make it impervious to air and water.

Science Siftings.

That the moon is without atmosphere is proved in several different ways.

The invention of a flame derived from electric energy that will not give off heat is claimed by a French scientist, who is keeping the details secret.

TRADE'S TONE AVERAGES WELL

POTATOES CONTINUE TO BE STAGNANT IN PORTLAND.
