

Model 364, Price \$3.50.

This is the most extreme corset that has ever been produced at such moderate cost. It brings to the woman who has been obliged to deny herself the satisfaction of a corset approaching the extreme baste of price, the privilege of securing a model the lines of which cannot be questioned when criticised from the standpoint of the latest demand in corsetry.

Model 364 is low in the bust with comfortable fullness over diaphragm, flexible clasps, extremely flat hip and long close fitting skirt, supplied with three sets of hose supporters. I have a complete line of other models on hand. Prices \$5.00, \$6.50 and \$8.50.

Out of the unusually poor shooting enacted by the La Grande Gun club last Sunday in the telegraphic shoot, came one outright victory, one defeat and a tie, making it necessary to again shoot off a tie with Bend next Sunday. All the teams in the state that are shooting had their ups and downs, Troutdale especially taking a great part in her shoot-off with La Grande. Wallowa stands undefeated and great interest centers locally in the shoot next Sunday when La Grande and Wallowa shoot. Especial effort to get a big crowd out will be made.

MEDALS FOR ROADS ESSAY

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, Director, Office of Public Roads, United States Department of Agriculture, Washington, D. C. All compositions must be submitted to Mr. Page before May 15, 1913, and the medal will be awarded as soon thereafter as the compositions can be graded. The composition may be based on knowledge gained from books or other sources, but no quotations should be made.

After many years' experience in dealing with the public road situation of the country, it is Mr. Page's belief that ignorance on the subject of repair and maintenance of roads is as much the cause of their bad condition as any other one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantages of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest among the parents. Bad roads have prevented many children from obtaining a proper education and have even prevented doctors from reaching the side of patients in time to save their lives.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name, age, and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page. The announcement of the competition has been sent to the superintendents of schools in the rural districts. No further information can be obtained from the office of public road. This announcement should be plain to

everyone, and all children will then start on a basis of equality.
