Youngsters in First Year Grade Show Promise for the Future.

Track and field sports that were participated in by a large percentage of the sterner sex population of the high school yesterday afternoon entertained the participants and a crowd of followers from the grades and high school at the race track. Sophomores and juniors were pitted against the seniors and freshmen, the latter group winning the meet handily. The hurdles, hammer event and broad jump events were stricken from the list of events, but otherwise, Coach Olson sent his men through the complete schedule of events. The two extremes classes won 57 points and the middle classes carried off 42. Friends of school athletics are much enthused over the interest displayed by first year men and the general ability of youngsters who promise excellent performances with more years and training. Captain Conkey
