Your Child's Health • Your First Thought

If you have children, naturally your first thoughts are for their health. You certainly want them to develop strong, healthy constitutions. The most careful attention must be given when children show the first symptoms of the many common ailments. Perhaps they are weakly and thin, or grow too fast, thus sacrificing strength. These and other apparently minor ailments may be the forerunner to a weak constitution for life.

Such children need Jayne's Tonic Vermifuge, which is essentially a children's tonic. First of all, it will properly care for the child's stomach. It will also improve the appetite, and will add strength to the other organs of the body. In cases of thin or impure blood, it increases the number of red corpuscles, enabling the enriched blood to keep the body healthy and strong.

Among the most common ailments that children develop is that of a disordered stomach, leading to an impaired digestion. In many cases this trouble is due to parasites in the intestinal tract. To correct such trouble, Jayne's Tonic Vermifuge is unsurpassed.

For more than eighty years millions of children have been restored to health through the use of this tonic. Insist upon Jayne's, accept no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.
