FAN AFFIRMS UMPIRE BAD

PENDLETON'S CASE AT WALLA WALLA GENERALLY PITIED

Umpire at Walla Walla Said to Disgust Garden City Fans.

Some real inside dope on the Walla Walla-Pendleton series last week and dope that puts the kinks of gloom into any team that may invade Walla Walla under present conditions—which includes La Grande this week commencing today—it brought to La Grande by a Walla Walla fan. According to this same Garden City man the fadom at large in Walla Walla is thoroughly disgusted with the highway robberies committed against Pendleton last week. At least three, and maybe four of the games, should have been the Bucks, it seems. So glaring have been Starkell's decision is the opinion of many Walla Wallans, it is said, that the umpire situation has become a matter of local dissatisfaction. It had been previously reported here that Starkell spends his leisure hours with the Walla Walla baseball club, playing pool, loafing in cigar stores with the players and making them his companions during the time the team is off the field. Under such conditions, prospects for the invaders at Walla Walla seem slim.

Boise Team Broken Up.
(Boise Statesman)

With nobody feeling any way except blue, and the chances of a successful road trip about as fat as those of the proverbial snow pellet dropped into the lower regions, the Boise club left Monday evening for a two-weeks' trip on the road.

"It never rains but it pours," goes the old saying, and the pouring process was applied to the Boise club Monday morning to a faretheewell. In a single hour telegrams were received that shot to smithereens what on Sunday had been a well organized ball club that looked like a pennant winner and seemed in ideal condition for a successful trip away from home.

First a wire was received by Dad Gimlin from Secretary Farrell of the national association which makes it look as though the club will lose the services of Roy Blausser, the crack third baseman who has been playing such an important part in the infield.

Second—conditions arose that made it impossible for Slim Hall to accompany the team on the road. He may not be able to play with the club for a month. Dad had him groomed for the Bucks and expected to win two games from them and two from North Yakima with him.

Sunshine and Flowers.
It is asserted by a French scientist that flowers give off more perfume when shaded than when the sun shines on them, because the sun's heat lessens the water pressure in the plant cells, this pressure driving out the oils that cause the odors.

Burma's Jade Mines.
The world's principal jade mine is in Burma, where the privilege of mining the stone has been in the possession of one Indian tribe for many generations.

Columbia River.
Ages ago, scientists claim, before the melting of the Okanogan glacier in the state of Washington, the Columbia river made Niagara insignificant by comparison. It plunged from the upper to the lower valley in the Grand Coulee, a sheer fall of 400 feet.

Europe's Largest Fishery Harbor.
Ymuiden, where the locks are situated at the entrance of the North sea canal, fifteen miles from Amsterdam, is claimed to be the largest fishery harbor on the European continent.

A Record in Beards.
The world's record in beards goes to Robert Lutter, an Englishman, who has sixteen feet of whiskers that he wears as a waist band and chest protector in cold weather. The champion "splanach" is plaited and wound around the owner's body.

The God of Salt.
The Chinese worship an idol called Phelo in honor of a mythical personage of that name whom they believe to have been the discoverer of salt and the originator of its use.

What They Drink.
The greatest tea drinkers are the English, the greatest beer drinkers are the Germans, the greatest wine drinkers are the French and the Americans are the greatest coffee drinkers.

Baseball Covers.
So far no machine has been found to give satisfaction in sewing the covers on baseballs. Hundreds of thousands of balls are used every year, and they are all hand sewed. A man working his best can not finish more than three dozen a day.

Labrador's Waterfalls.
The Grand waterfalls at Labrador are the highest in the world, rising to a height of 2000 feet. Those of Niagara are but 164 feet at their highest point.

No Guesswork

The big leagues use the Cork Center ball. They must have the best—that's why the Spalding Cork Center ball will be used in world series for twenty years to come.

The batters are hitting better in the big leagues since the Cork Center ball was adopted two years ago—records show it—and yet the pitchers smile an "I should worry" smile. They say they can throw it more accurately and that it is easier to handle. In the meantime, boys, write for a Spalding catalogue.
