

Light Company Fighting.
(Baker Democrat)
The Eastern Oregon Light and Power company has come out in the open to make a determined fight against the construction of a municipal lighting plant, and today will begin a campaign to convince the people that such a move on the part of the city commissioners would be

the height of folly and detrimental to the best interests of the taxpayers. Their publicity campaign will be conducted by Mr. Glen Marston of Chicago, who arrived Sunday. The first gun of their campaign will be fired this morning, a display advertisement in this paper announcing the same.

APPOINTMENT CONFIRMED

E. E. BRAGG, TOM BURKE AND OTHERS WIN OUT.

Final Authorization of Appointments Made Yesterday.

County Superintendent E. E. Bragg last evening received news of confirmation of his appointment yesterday evening in the senate. Senator Chamberlain forwarded the word and the matter of bonds will now be taken up in due time, meaning probably July first as the date of taking over the postoffice here.

Tom Burke was yesterday confirmed as collector of customs at Portland and other Oregon appointments were confirmed at the same time.

menting on the matter said in part: "We of course will be credited with opposing the construction of a municipal lighting plant through selfish motives, because of competition and loss of the city business. To a certain extent this is true, but on the other hand our company, as a heavy taxpayer in the city, does not feel that it wants to be assessed its pro-rata portion to pay the cost of what we are certain will be a 'white elephant' and something the city commissioners and people generally will regret.

"They say that the people have voted \$25,000 bonds for the construction of this plant, and that the commissioners are in duty bound to carry out their plan. This is true, but as a matter of fact this issue of bonds was authorized two years ago, and we believe that we can show the people good reasons for repudiating their action at the polls at that time. We will try to make our campaign against the municipal plant a campaign of education and believe that we can convince the people that the construction of the same will be detrimental not only to the Eastern Oregon Light and Power company, but to the city at large, which, after all, is the more important, and while some will disbelieve it, our prime motive for action is from the standpoint of being heavy taxpayers."
