

Don't heat the whole house to heat your irons. It isn't necessary.

Hot weather ironing with old fashioned irons is about as hard and exhausting a task as falls to the lot of the average woman. The sensible way is to use an electric iron. It can be connected to any light socket, so you can iron in the coolest room in the house, or on the porch if you like.

Electric irons make ironing a pleasure. No waiting for irons to heat; no changing irons; no drudgery. Your ironing is done in comfort and in 1-3 to 1-2 less time. And another important feature, Electric ironing is actually cheaper. All our irons are guaranteed.
