

PARK WORK UNDER WAY

PAVILLION SUPERSTRUCTURE REARED THIS WEEK.

Elegant fire Place Practically Finished—Lodge Going Up.

Splendid headway is apparent on the building operations at the city park. The pavilion being erected by Contractor Rush, is going up with much speed, and girders are being raised to their place today. Some of the walls' frames and rough siding are in place, and the huge fireplace in one end of the pavilion is almost ready.

At the same time, the lodge for the park caretaker and for use as a restaurant during chautauqua assembly, is going up under the direction of Contractor Kelly. It is located east of the pavilion, and has sample screened-in porch facilities to serve a large number of people from a kitchen-sitting room arrangement within the lodge proper.

WEALTH DISTRIBUTION.

In common with all Socialists, I believe that if the proceeds of industry were justly distributed among those participating in wealth production there would be few, if any, fortunes exceeding \$100,000 to legislate about. The claims made by many wealthy people so often that their fortunes are the result of their own labors, enterprise, self denial and thrift we Socialists generally disregard as being at variance with easily demonstrable facts. . . . Accumulations of private wealth will cease to require legislative attention in proportion as the sources of wealth and the process of wealth production are safeguarded by the state against unearned profit—J. G. Phelps Stokes.
