OPEN A NEW DEPARTMENT

UNITED STATES NATIONAL PUTS IN SAVINGS SECTION.

Will Pay Interest On All Savings Accounts In the Future.

Following their adopted policy from the beginning of taking care of the public in a financial way the United States National bank is installing a savings bank section and all savings deposits whether large or small will be cared for and interest paid on them at the rate of 4 per cent per annum. Interest will be figured on July and January 5th of each year and the same added to the account.

"We have been considering this addition for some time," remarked Cashier T. J. Scroggin to a reporter for the Observer last evening, "and we now have no hesitancy in adopting this course. La Grande has reached a period in her growth when there is a great deal of idle money in small sums among the children, the young men and women and some of the salaried people. Heretofore many did not feel like opening a bank account with a small sum, but now no one need have hesitancy in so doing because this department is put in for the very purpose of caring for the smaller deposits."
