SUNDAY SCHOOLS TOMORROW TO HEAR ATTACKS.

Alarming Spread of Cigarette Smoking Among Women Noted.

Tomorrow is tobacco day in the Sunday schools. While the evils of tobacco on the young will be generally emphasized, the chief stress is to be aimed against cigarettes. Lessons will deal on that subject and it is aimed to strike home at the deadly cigarette in every possible way. Apropos to the cigarette, appears an article in a Santa Anna paper contributed and compiled by a California woman. She sets out salient facts and then quotes from men of note. The article says:

Twelve to fifteen hundred boys begin smoking every day—estimated. Cigarette smoking is the king evil of the day among boys. Bad habits are the starting point in criminal careers. Crime is keeping pace with the cig-

arette habit. Ninety per cent of the youthful offenders are cigarette smokers. Boy bandits are the natural product of cigarette smoking and kindred vices.

Cigarette smokers in school are dullards and become truants; in business are failures, and become cowardly sneaks, who hold up unprotected women and others, killing their victims if necessary.

Like all other pests, the cigarette should be exterminated. State laws and city ordinances everywhere should make it an outlaw by forbidding the manufacture and sale of cigarettes and cigarette papers. The use of cigarettes and of all forms of tobacco should be absolutely forbidden to minors.

The cigarette habit is more insidiously dangerous than any other habit because of the narcotic influence and become of the methods of smoking.

Cigarette smoking benumbs and weakens the nerve that controls the heart, and makes it beat irregularly. Cigarette smoking weakens the stomach, and digestive juices are poisoned.

The cigarette will make the boy incapable of holding any responsible position, and leads him into the society of the indolent and vicious. It goes hand in hand with impure literature, liquor, morphine and bad habits.

It is the curse of the boy's body, mind and soul, the bane of society, and the enemy of all true mankind.

Then stamp the cigarette out of existence, and give the boy a chance. "I consider that cigarette smoking is the greatest vice degrading humanity today, because it is doing more than any other to deteriorate the race."

The cigarette boy grows nervous excitable and devoid of a will of his own. And what does a boy get in return for all this loss?

Athletic managers do not want him; business men do not want him. He joins the Down and Out club in his youth, and receives a life membership.

Prof. Edward Hyatt, State Superintendent of Public Instruction.

Prof. Albert Schneider, United States Bureau of Chemistry, San Francisco, says that cigarettes lead to the use of opium.

The United States is the largest user of cigarettes in the world.

Sixteen thousand, four hundred and eighty-two cigarettes are smoked every minute, day and night.

If all the cigarettes used in the United States last year were strung on a wire they would reach from the earth to the moon and back again, with enough left over to circle round the globe one and a half times.

The percentage of cigarette smoked by American women and children is growing rapidly each year.

Our lack of appreciation of the evil results of cigarette smoking is a typical national characteristic. We are long on cure but short on prevention. We are quite willing to take our medicine after we become sick, but totally unwilling to remove the causes of ill health. Even confirmed cigarette smokers do not attempt to justify its use, but only offer apologies and excuses for it. No man, although a victim of the habit itself, wants his son to indulge in it.

A boy who becomes a confirmed cigarette fiend gets such a love for it that if he cannot get them any other way he will pick up the stubs on the street.

Ernest J. Lickley, Director of Compulsory Education, Los Angeles.

Dr. George F. Butler of Chicago says: "Cigarette smoking is particularly poisonous. Any agent which weakens the heart and so excites the brain as to make it impossible to concentrate the mind on one subject, as cigarettes do in many cases, followed by failing memory, nervous excitement, with physical and sexual debility, is dangerous beyond all estimate, especially to young people." He says most all degenerates, criminals, many insane, male and female, and prostitutes smoke cigarettes.

David Starr Jordan says: "Boys who smoke cigarettes are like wormy apples. They drop long before harvest time."

Rev. Robert Burdette says: "The boys that smoke cigarettes reminds me of a cipher with the rim knocked off."

Eleven states have outlawed this tyrant. We pray that one more—California—may soon be added to the list.
