ANOTHER MONSTER BERRY.

As far as dimensions are concerned, Will Dunn has carried off the laurels thus far in the big strawberry contest that has been waged of late. It is a freak berry, but is only one, whereas several of the big berries exhibited of late have been "twins". This particular berry measures four inches across, has a circumference of 9 and one-fourth inches one way and seven and a quarter the other. Extreme shade and rain is deemed to be the cause of the abnormal growth.
