UNION'S HAY HARVEST IS ON

VERY HEAVY CROP BEING CUT AND CURED.

Road Supervisor Repairing Roads in Union District Rapidly.
 Union, July 17.—(Special).—Haying is the order of the day and farmers want all the help they can get and it looks as if some of the gentlemen that are sitting around on the dry goods boxes and complaining of hard times had better get out and help to make times better. The hay is very heavy and farmers are delighted with the heavy yield they are getting.

Mr. Wrigglesworth is busy keeping up the roads. He is on the go most of the time. The new stretch of road that Dr. Mulholland changed so as to go around his property instead of across would stand a great deal more of work. The road is almost impassable to autos in rainy weather. The law states plainly that in order to change a road the one changing it must make as good as the old one. There must be some mistake in this road being as good as the old one for it will require several hundred dollars worth of work to put it into as good shape as the old one.

Secretary Sikes of the Farmers' union was in town Friday and made a fine talk to an audience in the evening at the K. of P. hall. The English Breakfast.

England has known many changes during recent years. Caste lines have been obliterated, the silk hat is no longer an object of reverential worship, actors have been knighted and bands introduced into restaurants. But the breakfast table is the last ditch of British conservatism. The Englishman eats bacon and eggs 365 mornings in the year and welcomes leap year because it enables him to indulge in that delightful dish 366 times. The monarchy may be abolished and the house of lords deprived of its prerogative, but the English breakfast will remain as it was in the days of the conqueror.—New York Herald.

That Elusive Gray Hair.

"What makes me really mad," said the woman, "is to spend minutes, maybe hours, trying to get hold of a white hair that shows up on my head like a dazzling light, yet which is tantalizingly elusive when I try to catch it, and then when I do finally separate it from the brown hair and give it a vigorous pull, to find that I have snatched out a good brown hair and left the white one still shining!"—New York Times.
