

Expense Stops When Your Cooking Stops

That is one of the big advantages of the

New Perfection Oil Cook-stove

When you are through cooking you simply turn out the flame. There is no waste of fuel. And yet you can have full heat again when it's wanted, by merely striking a match.

The NEW PERFECTION COOK STOVE is much neater and cleaner than an ordinary range; no dirty fuel; no ashes. Ask your dealer for the New Perfection Stove. It bakes, broils, roasts or toasts.

LIVING COST EVEN AVERAGE

CALIFORNIA HAS BUT LITTLE ADVANTAGE.

Flour, Potatoes Among Items Higher In South Than Here

"Cost of living is about an even break in Los Angeles as compared to La Grande," affirms J. G. Snodgrass a local grocer who has just returned from an extended stay in the south sections of California. "On some commodities, the Californians have us bested; on other things we are cheaper, and the average is about the same as ours. For instance, Los Angeles pays more for its flour than we do and more for potatoes than we do. Canned goods are a shade cheaper there than here, and fresh vegetables are much less there than here. Sugar is the same barring difference in the freight rates. I found however," continued Mr. Snodgrass today, "that cantaloupes and oranges are, not of any better quality there than here. Like the apple growers of Oregon belts, the oranges of best grade are shipped away and common stock held for local consumption. The orange display windows there and here are no different, unless it might be that ours are a trifle the better. Cantaloupes are not as cheap as one would think and not of the best quality always.

"The residents are great vegetarians and the cheap vegetables make it possible for them to undermine the cost of living prices slightly.

"For climate give me the Grande Ronde valley," exclaimed the grocer. Commercial club director today, getting back to commercial affairs. "We have the best there is.

"Commercial club activities in Los Angeles are live. The chamber of commerce is backed up by various leagues and rotary clubs, Ad clubs and similar institutions that help out the parent body and commercial interests of southern California are well watched."
