WILSON STILL MARKING TIME OVER MEXICANS

MATTERS IN STATUS QUO UNTIL AMBASSADOR JOHN LIND ARRIVES.

HUERTA VERY SENSITIVE

President Hopes for Peace With the Arrival of Ambassador Lind at Mexico City in a Few Days—Foreign Relations Committee Consulted Prior to Naming Lind as the Ambassador.

Washington, Aug. 6.—The president is marking time on the Mexican situation until the arrival at the Mexican capital of John Lind, his special emissary. Despite the declaration of Provisional President Huerta, that any interference by the United States would be regarded as an insult, the president is still confident that peace with Mexico may be established by mediation.

Members of the foreign relations committee today denied that they were angered because Lind was named as ambassador to Mexico, insisting that the entire committee was consulted before he was named.

Lind Not Permanent.

Minneapolis, Aug. 6.—John Lind wrote to friends here that under no circumstances would he accept the post of ambassador to Mexico. Lind said that he expected to return to Washington as soon as it was possible after he completes the work in Mexico.

WHEATLAND QUIET.

Militia Remains on Hand But It Is Not Believed Riots Brew.

Wheatland, Cal., Aug. 6.—Adjutant General Forbes with a company of militia, remained on duty today despite the fact that hundreds of the hoppers left for the fields. Peace reigns here after the riots of Sunday and no further trouble is anticipated by the officers of the national guard.

Circles Globe in 35 Days.

Cleveland, Aug. 6.—John Henry Mears of the New York Sun, left here today on the last lap of his trip around the world, which he will have circled in 35 days upon his arrival at New York.

SUN YET SEN SEEKS SHELTER

REBELLION FAILS AND LEADER FLEES.

Objection to Conservative Nature of Government Not Sufficient.

Tokio, Aug. 6.—Dispatches received from Canton say that Dr. Sun Yet Sen, recognizing that the failure of the Chinese rebellion that has been in progress for some time, has fled the city and is now on his way to Tokio expecting to be allowed to find refuge in Formosa.

Sun Yet Sen led the forces that were disastified with conditions under the new regime. The rebels were more opposed to the conservative nature of the administration than to the general plan of the new government but on every hand the rebellion has failed dismally.

DOCKMEN AT DULUTH STRIKE

WALKOUT AFFECTS LAKE SHIPPING SERIOUSLY.

Sympathy for Other Dockmen Prompts Walkout This Morning.

Duluth, Aug. 6.—Six hundred workers in the Duluth, Masaba & Northern ore docks, struck today in sympathy with the Allouez dock workers, in a demand for higher wages and safer working conditions. All shipping and traffic on the Great Lakes is threatened by a walkout. Many steamers are now waiting to be unloaded and unless the strike is settled soon, shipping interests will suffer heavy losses.

Band Concert Tonight.

The regular weekly band concert will be held this evening on Adams avenue.

First Wheat Report Runs 54 Bushels To The Acre On Playle Ranches

Chas. Playle, prominent wheat grower of Alicel, is one of the first men to get actual wheat crop returns through 1913 threshing. His first batch of wheat threshed reached the surprising total of 54 bushels to the acre, and there are hundreds of acres of wheat in his vicinity that have every appearance of doing as well. That estimate made by the Observer on authority of wheat growers placing the probable crop of wheat at a million and a quarter to a million and a half bushels is to be realized, is indicated from the first cuttings. Ed. Kiddle, veteran wheat buyer of this valley, places his estimate at 1,250,000 bushels.

MULHALL UNABLE TO APPEAR BEFORE HOUSE PROBERS NOW

Washington, Aug. 6.—The examination of Martin Mulhall will probably begin Monday in the house. Mulhall appeared before the committee today and protested that he was worn out as a result of the long ordeal before the senate insidious committee and demanded a rest. He was then excused by Chairman Garrett.

"If you compel me to testify," Mulhall declared, "I shall get a physician's certificate showing that I am physically unable to testify. I have been un-

TWO PENDLETON FIRES AT SAME HOUR INCENDIARY

Pendleton, Aug. 6.—Every indication points to wholesale attempts to burn considerable portions of Pendleton last night. The Pendleton academy building on one side of the town, was very evidently fired and furthermore at the same hour that the Domestic laundry—on another side of the city—was fired by incendiaries. There is no other conclusion to draw from the circumstances attending both cases. The Powers residence was also badly damaged by fire last night but it is not known if incendiarism had anything to do with the matter. The losses are not as serious as the circumstances attending the fires. The academy building was not destroyed entirely but severely damaged and the laundry building was not an entirely

new structure hence the loss is nominal, running into a few thousand each. No trace of the fire bugs have been found today though the authorities are bending every effort on apprehensive of suspects.

Mining District Still Quiet.

Calumet, Aug. 6.—General Abbey commanding the state troops is preparing to remove part of the force from the copper mining district and expects an order to that effect from Governor Ferris. Sheriff Houghton of this county, is recruiting 600 deputies as an aid for the present deputies in guarding the men when the troops leave.

JURY SECURED WITH DISPATCH

MAURY DIGGS JURORS HURRIEDLY ACCEPTED.

Believed Evidence Will Be Introduced This Evening Sometime.

San Francisco, Aug. 6.—With the government defenses having each exhausted half of the peremptory challenges for the examination of veniremen to try Maury Diggs, at the adjournment of the noon session, it seemed certain that the impanelment of the jury will be completed late this afternoon and the first evidence will be introduced.

Biased opinions against the latitude of the Mann white slave act were brought out today when three veniremen were excused for prejudice against the enforcement of the act.

COURT HEARS BLIGHT STORY

APPLICATION FOR PUBLIC FUND MADE TODAY

Fruitmen Present Appeal In Person to Court and Commissioners.

Fruit men of Union county appeared in person this morning before the county court and commissioners at their first day's session of the August term and presented a petition for funds with which to fight pear blight and fire blight that has been rampant in local orchards this summer. As a result, the court and commissioners are this afternoon deliberating on the petition which is held up as a community matter in that a tremendously big industry of the valley is affected by the blight.

The action by the court was the result of an appeal sent to the court a few weeks ago when a mass meeting of fruit growers was held in this city. The situation was so serious it was admitted at that time that the thousands of acres of apple and cherry orchards were in danger of complete destruction. The general plan is to have experts come here and go into the orchards to cut out scientifically the diseased parts and to instruct deputies to do the work so that it will not be necessary to keep the high-priced experts here all the time. As soon as local deputies can be taught the correct way to cut up blight, the plan is to keep them going until the fight is victorious—immediate action by a general force under one head was deemed to be the best solution of the struggle.

Catholic Abstainers Meet.

Philadelphia, Aug. 6.—Following the formal opening of the convention of the National Catholic Total Abstinence union with solemn pontifical mass at the cathedral several thousand delegates from every section of the country settled down to business this afternoon for a three day session. The morning session was devoted to speechmaking. Director of Decks Ferris Norris welcomed the delegates in behalf of Mayor Blankenburg. Representative J. Washington Logue, of Pennsylvania, was the principal speaker this afternoon. A public outdoor meeting will be held tomorrow at Willow grove. Bishop Canevin, of Pittsburgh, and Rev. P. J. O'Callaghan, of Chicago, national president of the union, will be the principal speakers. Archbishops Keene, of Dubuque, Ireland, of St. Paul, and many distinguished laymen from the west also will speak.

Many Silvery Tongues Still

SUMMER LEGISLATION CUTS BIG SALARIES

BRYAN IS ONLY ONE

Murdock, La Follette, Marshall, Et Al, Must Stay at Capitol.

Washington, Aug. 6.—The tempest of criticism which arose when Secretary of State Bryan declared that he couldn't live on the \$12,000 yearly salary he receives as head member of the president's cabinet and that he was compelled to augment his salary with receipts from his chautauqua talks calls to mind the fact that there are quite a number of "chautauqueters" held involuntarily in Washington this summer. And worse still for these erstwhile platform charmers, it is generally conceded here now that the extra session of congress will continue right on through the chautauqua season until the latter part of September—if not later—thereby putting a disconcerting and jagged dent into the planned incomes of a good many public men.

Vice President Marshall hoped when 6,291,776 citizens voted him into the vice presidency, that he would be able to add to a rather thin purse by raking in a few shekels which some of these citizens might pay to hear him lecture. He has made several brief excursions into the chautauqua circuit, but he doesn't dare leave for any extended period while congress is in session. Marshall has to sit tight on the job because at any moment that scant Democratic majority in the senate might get to running wild and make it a tie vote on some administration measure.

Not only does this summer legislation hit the legislators hard in the region of the pocket book, but it has also played havoc with innumerable vacation plans. Mighty few Democrats will be permitted to leave Washington from now on, and some of them are acting just like the office boy does when the boss tells him he can't go off on that cruise or camping trip he had looked forward to with such pleasurable anticipation.

While all of the men of official life

CROP REVIEWS SHOW NATION'S GRANARY FILLED

CORN AND OATS ALONE ARE NOT UP TO RECORD STANDARD IS REPORT.

EXHAUSTIVE SUMMARY OUT

Wheat Crop Exceptionally Good All Over—Winter Seeded Sections of Wheat Are Exceptionally Good—Continental National Bank Compiles Interesting Data on the Crop Outlook.

CONTINENTAL BANK'S ESTIMATE OF YIELDS.

Crop	Est. 1913
Wheat, bu.	739,730,000
Corn, bu.	2,800,000,000
Oats, bu.	1,003,266,000
Rye, bu.	36,854,000
Barley, bu.	200,527,000
Hay, tons	66,610,000
Cotton, bales	14,702,000

Chicago, Aug. 6.—The annual crop report issued by the Continental & Commercial National Bank of Chicago issued this morning, says in part:

Less prodigal on the whole than last year, the important crops of the country are above the average, ample for breadstuffs for export. The enormous yields of the previous season have left an unusually large surplus of crops consumed on the farm, so that with lighter yields in corn and oats the amount available is not far from that of a year ago. The gradual, and almost constant rise in the yield per acre in this country is indicative of better farming methods. Ten and 20 years ago, the climate conditions such

RUSSIAN ATROCITIES TOWARD PRISONERS REVEALED DAILY

St. Petersburg, Aug. 6.—Almost unbelievable atrocities are being revealed daily in connection with the general investigation of the Russian prison system now being conducted by a special governmental commission.

The attention of the commission has been directed especially to Riga in the past few days. The evidence shows that the detective department there has practiced methods which revive the atrocities perpetrated at the Spanish inquisition. Thirty-seven workmen, arrested on suspicion of murdering an engineer, were all subjected to the most horrible forms of torture during their examination. One of them, a youth named Timofyeef, was pinioned with his arms beneath his bent knees, a stick being passed through them so he could not stir. He was then thrown to the floor, and one of the detectives belabored his naked feet with a rubber whip, afterwards using the butt end on the lad's body. When he cried out from pain, the detectives gagged him, gripped his throat until he was senseless, revived him with

cold water, tore out his hair by handful, knocked his head against the floor and subjected him to other unprintable indignities. A month later, all the prisoners, including Timofyeef, were released without any charge having been placed against their names. Timofyeef will be a cripple for life.

A report from the Schluesselburg prison states that the food is vile; all hygiene has been dispensed with; there is no medical treatment; for the most trifling offenses prisoners are condemned to a month in the dreadful punishment cell, and floggings are a daily occurrence. Seven victims of this regime have recently become insane.

A letter from a prisoner at Acat'h says: We are making a special study of suicide. A comrade who has been able to bring poison in with him is regarded as exceptionally fortunate. Those of us who are not thus provided are practicing the art of making deadly nooses which we may tighten with our own hands in case we are called to the awful punishment cell."
