State News Brevities

Hunters Have "Lost" Signal.
Game Warden Wm. C. Finley has just given publicity to a scheme to help hunters lost in the mountains. He has devised a code which he recommends to every man who invades the woods:

When you find you are lost, fire two shots ten seconds apart. Then wait 60 seconds and fire another. That is to be the official signal of distress. If some hunter who is not lost hears the shots, he is to fire one shot in answer. The lost hunter will then fire one shot in recognition.

But if the first signal is not heard, the lost hunter should wait five minutes before he repeats the cry. Then he is to fire again in the same manner.

Mr. Finley is sending letters telling of this code to every gun club in the state. He believes the sportsmen will adopt it as the standard and come to listen whenever a shot is heard. If a second shot comes ten seconds after the first, they will know someone is in trouble, and the third shot a minute afterward will be proof conclusive and make the one who knows where he is to rally to the aid of the one who does not.

"Rich" Eastern Oregon.

Portland, Aug. 8.—D. J. O'Shea, a pocket miner, who has just returned from an examination of the mining district in Eastern Oregon, declares that Canyon mountain in Grant county, near the John Day river, needs only capital to develop into one of the richest mining sections in the west. Mr. O'Shea explains that he is not a booster for the section and has no interest there, but from what he saw he thinks attention should be called to the district.

"There is a large quantity of quartz, which is of small value," explains Mr. O'Shea, "but the stringers are fabulously rich and of exceedingly high grade. I know this because I secured some of the ore and wear a chunk of it for a watch charm. By proper development, and this means capital, I believe that great gold and copper mines can be found for the ore is deep. The section is 70 miles southeast of Baker, in a beautiful valley from three to four miles wide, where there is plenty of fruit and stock."

Rader Makes Bow.

Pendleton, Aug. 8.—Don Rader, former Pendleton player, who left several weeks ago to join the Chicago White Sox, made his formal debut in the big leagues yesterday and it was just the kind that tickles all of his friends here. He replaced Larry Chappelle in left field in the third inning got two put-outs in two chances, faced the pitcher twice, and got the only extra-base hit of the game which was one of three hits Chicago got off of the Washington pitchers. It was a two-base blow and he finished the circuit for one of the two scores his team made. All in all, his showing was a pretty creditable one for a youngster who has never played in circles higher than Class D.

His opportunity to get in the game came when Chappelle and Collins collided in the second inning while going after Milan's Texas leaguer back of second. Collins was knocked unconscious and Chappelle was so badly jarred that he was pulled from the game in the next inning and replaced by the Pendleton boy, Walter John-

son, the great speed merchant, twirled the first four innings for Washington, but, with his victory assured he was taken out and replaced by Gallia who allowed but two hits in five innings, one of which was Rader's double.

To Increase Capacity.

(Baker Herald.)

B. L. McLain, the Sumpter millwright, accompanied by Paul Peterson and D. M. Machan, are in the city today in their way to the Mormon Basin, where they will install new machinery and reconstruct the plant on the Humboldt mine.

The mine is now equipped with a ten-stamp mill, but to this is to be added 10 more stamps, three Whiffley tables, a Harding regrading mill and a cyanide plant.

The improvements to be made on the plant will cost approximately \$20,000 and when completed the mill will have a capacity for handling 100,000 tons of ore per day.

Storm at Prairie City.

Prairie City, Aug. 8.—This place and vicinity was visited yesterday by a heavy electrical storm accompanied by an avalanche of rain. In the foothills a few miles south of town at the headwaters of Dixie creek, a cloudburst occurred, converting the little stream into a raging river which spread over the entire flood plain of the creek along the western border of town. Five miles above town and from that point to the mouth of Dixie creek, a half mile to the southwest, the swollen torrent carried out bridges and culverts and tore up the public highway which runs parallel with the creek. Considerable damage was done by hail and rain at other points about town in the overflow of meadows where the big crop of grass had been cut but not stacked.

Prisoners Make Getaway.

Baker, Aug. 8.—Wood sawing in hot weather is not a popular pastime for the city prisoners. For the past three days prisoners confined in the city jail have been aiding the firemen in laying in their winter's wood supply. All the lumber which was taken out of the old barn preparatory to remodeling it as a home for the department is being sawed up by the law breakers and piled away. Yesterday two of the men grew tired of their job and quietly walked away. This afternoon one of them, while the lookout was not watching, slipped into the fire station, took his coat and made his getaway. The last seen of him he was quietly walking down Second street undisturbed.

Will Journey to Central America.

Baker, Aug. 8.—Daniel Dillibaugh will leave for Honduras, Central America, the latter part of this week. He will go from here to New Orleans, making the balance of the journey by rail through Mexico, braving the revolution which exists in that country at present.

Mr. Dillibaugh is making the trip to look after considerable mining property of which he is the owner in that country.

He will be accompanied on the trip by his son Clyde, and Frank Jones, both boys being in Portland at the present time.
