Bitcrete New Paving.
(Continued from Page 1.)

the matter has given the property owners on Spring street further food for thought before next Wednesday evening when bids will be opened.

CONCRETE TAKES DROP.
Twenty Cents on Barrel Cheaper—Saves 8 Cents Square Yard.

Twenty cents on the barrel for concrete that may be used in the paving of Spring street this fall if concrete base or concrete proper is used in the paving, were knocked off the price of the commodity this morning when word was received from the principal mills supplying this city with concrete. It means—if concrete in any form is used on Spring street, a saving of eight cents on the square yard for the property owner. The bottom went out of the cement barrel during the past 24 hours. Pressure was brought to bear on cement mills when the question of concrete base or the straight concrete pavement for Spring street came up, by "Red Devil" Edwards, a cement dealer. The upshot was the 20 cents were pruned off the barrel price, the former quotation of \$2.85 being cut to \$2.45 per barrel. This price is applicable only to paving projects and does not deal with other cement jobs—at present at least. This reduces about half the difference in price for cement in the Willamette valley as compared to Union county. The cement contractors can sever 8 cents per square yard from their bids as a result of the slash. The entire reduction of the cost will be \$1600 to the entire contract.

STREET CLEANER HURT.

I. C. Holmes Meets Painful Accident as He Jumps From Cart.

A painful accident occurred this noon when I. C. The horse was startled and started forward in such a manner that the wheel ran over Mr. Holmes' arm and broke the bones. The patient is resting well this afternoon at his home.
