"Swat the Rooster."

"Swat the rooster", says the Missouri State Poultry Experiment station, and this applies not only to Missourians, but ought to be the slogan of all poultrymen as soon as the breeding season is over. Millions of dollars' worth of eggs are spoiled every summer because they are fertile, advises the Missouri station, and it is the farmers and poultry raisers who are losing this tremendous sum each year. Since an average of one egg out of five in the summer is bad, and when eggs are sold on the loss-off system, the loss from bad eggs reaches a mighty figure in every poultry state.

"After the hatching season is over, there is no longer any reasonable excuse for keeping the males with the laying hens. Some people imagine that hens lay more eggs if the roosters are allowed to run with them. This is a mistake. On the contrary, careful experiments have shown that a flock of hens will actually lay more eggs if the males are not allowed with them.

"Because the deterioration which takes place in an egg is not easily visible to the naked eye, as it is in fruits, vegetables, etc., people do not realize that it is one of the most perishable of all food products. This is especially true of the fertile egg. A fertile egg kept in a warm room will become unfit for eating purposes almost as quickly as milk.

"It is a mistaken idea that a fertile egg has to be in an incubator or under a hen in order for the germ to begin to develop. A very large per cent of the eggs candled out every summer by carlot shippers and the wholesale egg dealers are fertile eggs in which the germ has started to develop and then died when subjected to a lower temperature, thus causing decay to set in.

BANANA CAR IS DUE THURSDAY

RELIEF YESTERDAY WAS TEMPORARY ONLY.

Delayed Shipment of Carlot to Come to City Tomorrow Is Report.

Temporary relief for the banana shortage that has prevailed here for a week or more, came yesterday but it was only in the form of a local shipment from Portland. A carload lot for the La Grande Grocery company, wholesalers, is due tomorrow morning, the carload shipment received some time ago having long since been used up. The shortage came about through a delay in shipping, but the local consignment from Portland helped things out yesterday afternoon and tomorrow the entire carload will be here so there is now no further danger of shortages.

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.
