HAVE DARK HAIR
AND LOOK YOUNG

Don't Stay Gray! Nobody can tell When You Adren Gray, Faded Hair With Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wythe's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well known down-town druggist says everybody uses Wythe's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Sold by Newlin Drug Co.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gehhart, Oriole Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by all dealers.

Why Hollow Trees Live.

In forests and private parks one may often witness the remarkable sight of a very old tree with a trunk consisting of nothing but a hollow shell and yet bearing branches that are covered with foliage. It would seem to be impossible that the dry bark, in some cases only held together by an iron band, could go on producing leaves year after year in the manner in which it does. The explanation, however, is quite a simple one. In very young trees the sap carrying portion is in the center. It is a series of bundles of minute cellular tubes scientifically known as "vascular bundles." As the tree gets older this series of bundles forms a ring which gets bigger and bigger as the circumference of the tree increases. In course of time the center withers and decays since it is no longer needed to supply the branches with nourishment.—London Graphic.

Beautiful Leicester.

Leicester has learned how to make herself beautiful from unpromising materials. She has no suitable building stone handy, and therefore out of red bricks, put together by cunning architects, she has constructed a city unlike any other in England. A local art school has fostered the spirit of beauty, and thus Leicester has triumphed over her limitations. She has been described as a risky red town set in a mass of greenery. Even the lamp-posts have been designed by a sculptor who is not ashamed to let them bear his name.—London Chronicle.

Might Have Been Worse.

"Too bad," said the optimist to the man next to him on the bus, whose hat had been blown into the river. "but it might have been worse." "I can't see how," replied the hatless one, with a stare. "Why, it might have been my hat."—Yonkers Statesman.

Acquiring a Title.

"So you are going to leave us, Mrs. Rusher?" "Yes. We are going to move to Kentucky for a few weeks until my husband gets to be called 'colonel,' and then we shall go to Washington to live."—Chicago Record-Herald.
