SUBWAY JOB WELL STARTED

BIG CREW EXCAVATING FOR
NEW SUBWAY AT NORTH 2ND.

Twenty Thousand Is Railroad's Share
of the Expense.

Active work to complete the Second street subway has been the rule this week and excavation is well started. All the men and teams that can be consistently used, have been employed to get the big contract finished before heavy frosts, and there is much concrete work in connection with the project. The subway will give good clearance under the railroad tracks and provide a sidewalk for pedestrians. The city bears a small portion of the expense and the railroad company will spend something like \$28,000 on the job. It is to be the biggest subway in eastern Oregon and will remove the dangers of accidents and make more convenient the entire traffic question at that point.

The Kind Relishable Of Soda

is the kind we serve from our fountain—cool, cheering, thirst-appasing. The first drop and the last are equally pure and tempting—perfectly delicious. Flavored to suit all tastes and fancies, and just enough ice cream to make it positively refreshing at all hours. This is the healthiest drink one can take in the summer time and likewise the most economical.

Yell Defiance at Blood Disorders

A Remedy That Has Shown
a Most Remarkable
Purifying Effect.

At Last You Can Get Rid of Blood Troubles—S. S. S.

The word Medicine is one of the most abused in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known medicine S. S. S. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the elements of wheat, roast beef, the fats and the sugars that make up our daily ration.

As a matter of fact, there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutriment. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming Rheumatism, Catarrh of the Stomach and Intestines, skin eruptions and all blood troubles.

Avoid Sedative Cough Medicine.
If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world wide reputation for its cures. It contains no morphine or other sedative.
