WANTED—General house cleaning washing and ironing. Phone B. 381. 10-16 3t p.

BABY SHOW AT ARCADE.

Course in Eugenics to Be Given in Pictures.

Eugenics in Oregon have attracted attention from every state in the Union and the strongest commendation has been given the Bureau which is to be duplicated in many other states at once.

Believing that a moving picture of the course is of interest to every home Manager Winstock, of the People's Amusement Co., has procured a splendid reel of pictures and tomorrow afternoon and evening they will be presented at the Arcade in this city.

"Every woman, whether a mother or not should see these pictures," writes Mr. Winstock, "for they show the entire course of Eugenics from treating the baby, modification of its milk, to the bath all performed by professional nurses and physicians."

There will be the usual matinee at the Arcade with these Eugenics pictures as well as evening exhibition.

New Equipment for S. V. Board. Baker, Oct. 16.—A new, modern steam shovel recently purchased of Marion, Ohio, by the Sumpter Valley Railroad company, arrived in Baker night before last and yesterday under the direction of a man from the factory was set up and tested.

The new outfit is a modern piece of mechanism, complete for nearly all kinds of railroad work. As the factory representative said: "It will do everything but mow the lawn." It is operated by a donkey engine, complete in itself, and in addition to the usual work of a steam shovel has attachments for ditch digging and derrick for use in case of wrecks. It is one of the most modern pieces of machinery of its kind in use by any western railroad.

The People's Store

Quite Natural. "Of course," said the tourist, "you know all about the antidotes for snake bite?" "Certainly," replied the explorer. "Well, when a snake bites you what's the thing you do?" "Yell!"—Philadelphia Press.

The New Mother. "When you kissed your weeping mother goodby and went out into the world to make your fortune I presume her last fearful injunction was for you to be good?" "No, make good."

Basketball. Basketball was the invention of one man and was completed at a single sitting. In 1891, in the course of a lecture at the Young Men's Christian Association in Plainfield, Mass., the lecturer spoke of the mental processes of invention and used a game, with its limitations and necessities, as an illustration. James Nasmyth, who was a member of the class, worked out basketball that same night as an ideal game to meet the case. It was presented the next day in the lecture room and put in practice with the aid of the members of the gymnasium. From there it spread to other branches of the Young Men's Christian Association and subsequently to athletic clubs and the general public.—New York Press.

An Optimist's Epitaph. The Carlsbad invalid has ordinarily a surprisingly robust appearance. He looks strong. Scoffers say he has to be to live through the rigors of the cure. There is an apocryphal legend of an epitaph in a Carlsbad churchyard:

I was well. I hoped to be better. Here I am! —Harper's.

Important to Him. An old lady was telling her grandchildren about some trouble in Scotland in the course of which the chief of her clan was beheaded. "It was one great thing of a head, to be sure," said the good old lady, "but it was a sad loss to him."

Spanish Peasants. In Spain the peasant works all day and dances half the night, yet rarely is his food varied from black bread, onion and watermelon.

Things that never could have made a man happy develop a power to make him strong.—Phillips Brooks.

SYNDICALISM. Syndicalism is not a revolutionary and alarming conception. It is simply perfected unionism. In this country the principle has been more generally designated "industrialism." What we are working immediately for is to better conditions of labor, to shorten hours and to eliminate unemployment. Think what it would mean in raising the level of society if every man and woman were sure that so long as he or she worked honestly there would always be work to do! Think what the specter of unemployment means in decreased deficiency and economic waste! Think how senseless it is that workers should be overdriven at times, and forced to idleness and starvation in intervening periods! You tell me that the agitation of industrialism is denounced for breeding "class hatred." Some people are unwilling to admit that there is "class." I would refer them to John Ruskin's letters, in which he described his awakening to the realization of industrial conditions, and his seven years' struggle in vain to arouse the people of his class and his admission, that the ruling class of England could not be brought to do justice to the working class by agitation unsupported by force.—Tom Mann, English Labor Leader.

Sensation May Be Developed. Baker, Oct. 16.—The case of Robert McCormick, an alleged delinquent minor, was under consideration a greater part of the day before Judge Basche in juvenile court yesterday. The boy is said to be incorrigible and an habitual truant from school. The conditions of his home life are said to be in a large measure responsible, although once before his mother by her pleadings stayed legal action to take charge of the child. Sensational developments have materialized in the case which may lead to disclosures when the matter is settled, which it probably will be today. It is one of the cases which have been under the surveillance of J. G. Kilpack, agent for the Boys' and Girls' Aid society, for some time. Mr. Kilpack is now in the city working on this case and others.

Altar Society Party Tonight. The ladies of the Altar society of St. Mary's Catholic church, will hold another of their delightful social evenings tonight at the Odd Fellows' hall. The ladies gave the first of a series of parties about two weeks ago and was so well enjoyed that the time was immediately set for another. This evening the program is in the hands of a committee of ladies who announce the following program: Cards will be played, dancing for the younger people and a "donkey" party for all. Prizes will be given and a special door prize has been provided.

FORTY NINE CLOSED.

Once Ordered to Move, Show "Comes Back" for a Few Minutes.

Although ordered to move the night before, or at least close the doors on "The Days of 49" in a vacant saloon building at Depot and Jefferson, a group of girls who have been operating for the past week there in a more or less sensational grizzly gulch dance, attempted to resume dancing last night. The barker was detected and ordered to stop by the police force, and the squad of maidens were summarily told to quit the building.
