hostesses to a number of friends. This will be one of the principal parties slated for Thanksgiving week.

The Order of Railway Conductors enjoyed a grand occasion last Sunday evening with the installation of officers and a subsequent banquet. T. E. Beuhler is chief conductor, J. F. O'Connell, secretary-treasurer, A. W. Ray, assistant chief, A. J. Alstott, senior conductor, F. W. King, junior. A banquet was served at the home of Mr. and Mrs. O'Connell with Mrs. Hamilton and Mrs. Safford assisting. Mrs. Ash was a guest of honor.

J. D. Kerr was toastmaster and called on A. V. Andrews, E. W. Smith, better known as "Smith of South of Market street," O. G. Hamilton, J. C. Mooney, Chas. Baxter and A. W. Ray. Among the visiting members in attendance were G. B. Rhodes, chairman of the general grievance committee, 285 Spokane; T. J. Collier, 44 Denver. The dinner consisted of seven courses, and was one of the biggest functions that the conductors have ever enjoyed.

The Happy Hour club met with Mrs. F. W. Williams this week in East La Grande. This club has decided to study the city charter and parliamentary order and the first discussion of these subjects came up at the last meeting. The committee in charge planned that the study meetings should be attended with discussions and lessons on domestic art and the members look forward to a very interesting series. Mrs. Williams proved a delightful hostess. Mrs. E. D. Selder assisted her in serving a delicious luncheon of two courses, which were in keeping with the Thanksgiving.

The M. B. A. lodge gave an oyster supper Nov. 19 at the home of U. G. Keenan, which was a success in every way. There was a good attendance in spite of the rainy night and everybody

CONCENTRATION!!

THE ONE RIGHT WORD THAT EXPLAINS THE REASON FOR THIS SALE! THE BIGGEST PIANO EVENT LA GRANDE HAS EVER KNOWN.

The biggest, not in point of numbers, but from the value getting standpoint. Here is an opportunity for shrewd buyers to get double their money's worth in pianos and player pianos. Less than a dozen instruments to be had at these savings in price.

At a meeting of the board of directors of Eilers Music House it was determined to concentrate all stock of goods and musical merchandise in the larger cities, such as Portland, Spokane, San Francisco and Los Angeles. For this reason stores at points like Walla Walla, Everett and some of the smaller coast cities are being closed out as soon as possible. La Grande territory has always been covered by the Walla Walla branch of the Eilers Music House and a stock of goods has been maintained at La Grande, Baker City and elsewhere in this territory. Since the Walla Walla store is being closed out it is necessary to dispose of these stocks at the smaller points. Consequently we are offering the local stock at the same tremendous sacrifice in prices prevailing at Walla Walla.

SAVINGS FROM \$138 TO \$296

You can now save from \$138 to \$296 on the different instruments in this stock, and if you are not prepared to pay all cash we will agree to accept any reasonable terms of settlement. These prices are based on actual factory cost and freight. Consequently we are desirous of securing as much cash as possible but do not let this deter you.

Come and see the goods. Every piano is absolutely guaranteed and backed by our exchange voucher which will be honored at our Portland store at any time within one year. We urge you if you expect to buy a piano at any time within the next three years to investigate this opportunity.

Every Instrument at Factory Cost and Freight!

Mr. Chas. E. Havens is in full charge with authority to close out every instrument at practically factory cost plus freight. Included in this stock is a beautiful Chickering Baby Grande piano, several Pianola Pianos, Player Pianos, and high grade Uprights. Not one reserved. Every piano in this stock must be sold, and sold quickly. Three days should do the work.

AN OPTICAL ILLUSION.

Apparent Size of the Moon at the Horizon and at the Zenith.

The moon's larger appearance when near the horizon as compared with its size at the zenith is really an optical illusion, and accurate angular measurements have shown that it is actually a trifle smaller when low down, as it should be on account of being a little more distant.

Adding a new attempt at explanation, Dr. M. Ponzo, an Italian psychologist, compares this with an illusion already represented by E. T. Sanford, another psychologist. Two straight lines are brought together at an acute angle at one end, two exactly equal circles being then drawn between the lines, when the circle nearer the apex appears decidedly the larger, but the illusion lessens as the angle is made less acute.

As the celestial bodies near the horizon, they appear in the angle formed by the earth and the declining arc of the sky. The conditions are just those of the artificial lines and circles, and its enlargement in the narrowing angle is a contrast the moon conspicuously brings out as compared with the spectacle it presents in the free sky.

The fact that the apparent enlargement is not always the same may be due to changes in the angle by clouds or vapors.—Denver Republican.

HE WAS AN OUTLAW.

And Presumed to Violate the Rules of the Canal Zone.

Almost as important in the work of building the Panama canal as the blue eyed czar at Culebra (by which title Mr. Harry A. Franck, in "Zone Police-mag 88," distinguishes Colonel Goethals), was Colonel Gorgas, who made and kept the zone a healthy place.

Among the colonel's big tasks was the extermination of the mosquito. How thoroughly he did his work is humorously indicated by a letter that Mr. Franck quotes:

Gatun. — 28, 1912.
Dear Colonel—I am writing to call your attention to a gross violation of sanitary ordinance No. 3521 and an apparent loop hole in your otherwise excellent department. The circumstances are as follows:

On the evening of — 24, as I was sitting at the roadside between Gatun and New Gatun (some sixty-three miles beyond house No. 250), there appeared a mosquito which buzzed openly for some time about my ears. It was probably merely a male of the species, as it showed no tendency to bite, but a mosquito nevertheless. I trust you will take fitting measures to punish so bold and insolent a violation of the rules of your department. I am sir very truly yours.

MRS. HENRY PECK.
P. S.—The mosquito can be easily recognized by a peculiarly triumphant, defiant note in his song.

A Coming Attraction

The greatest attraction of the year, yes, probably the greatest of its kind that this town has ever known, will be the splendid exhibit of beautiful gift goods for the holidays which will be at our store next month. We can not state the exact date of the full display of these new things, but the opening date will shortly be announced. It will be worth your while to watch our ads so as to get first picking. The most novel and beautiful articles will, of course, be the first to go.—Newlin Book & Stationery Co.
