

ALLEN'S FOOT-EASE

The Antiseptic Powder shaken into the shoe—The "Foot-Ease" Remedy for the foot. A quarter century, 30,000 testimonials. Sold Trade-Mark everywhere. 35c. Sample FREE. Address: Allen S. Gossard, Le Roy, N. Y. The Man who put the "E" in "F.E.E."

The front-lacing principle (originated by The H. V. Gossard Co.) has accomplished much for the comfort and convenience of woman's dress.

Of even greater importance than front lacing, however, has been the genius displayed in the actual designing and making of Gossard Corsets.

So outstanding and thorough has been this work that, great as the front lacing principle is, the Gossard method of design and manufacture transcends it, and the two combined occupy a position so commanding that they are now regarded as an international vogue.

Regardless of the cost—every Gossard Corset conforms to but one standard in style, workmanship and wearing service.

A complete line of the new fall models and sizes always on hand. Prices \$3.50 to \$8.50.

Sick Headache.

Sick headache is nearly always caused by disorders of the stomach. Correct them and the periodic attacks of sick headache will disappear.

Mrs. John Bishop, of Roseville, Ohio, writes: "About two years ago I was troubled with indigestion and had sick headache that lasted for two or three days at a time. I doctored and tried a number of remedies but

UNITED STATES ENGLISH.

They Think Abroad We Are Forming a New Language Here.

Unless they are fairly conversant with current transatlantic action, and above all, with the newspapers of today, Englishmen do not realize that a new language seems in process of formation in the United States. A Danish savant, the professor of languages at the Copenhagen university, has predicted that in a few centuries "they will be speaking American over in England instead of English." He is also of the opinion that "the so called slang of the present American tongue is far more poetical, picturesque and serviceable than the English of Shakespeare's time."

Making allowance for a certain exaggeration, this expression of opinion is notable as showing that an expert believes a new American "language" to be in course of development. American slang is certainly more forceful and expressive than the argot of the British Isles, and, although much of it is quite unnecessary, it consists in large part of the employment of very up to date metaphor, rather than the use of "cant phrases," as they were termed in the eighteenth century.

In fact, the use of metaphor is so pronounced that an Englishman, otherwise ignorant of "good United States lingo" might understand much of it if he were conversant with the technical terms employed in engineering or railway operations. It is creeping into English rather rapidly, a fact heartily to be deplored.—London Globe.

SWEET POTATOES IN JAPAN.

One of the Three Things These Native Women Really Love.

The sweet potato seems to have emigrated from China via the Loo Choo Islands to Japan. Nearly two centuries ago Aoki Konyo recommended to the shogun the cultivation of the sweet potato all over the empire. In grateful memory of the benefactor there now stands over Aoki's grave a monument with this unique inscription, "The potato professor."

One of the distinguishing features of Tokyo is the sweet potato bakeries, where, during the colder months, hot potatoes prove a godsend to many. Around these potato shops the poorer children crowd with their copper, anxious for the morsel which is to them what milk chocolate is to children of the west. Rumor has it that there are but three things the Japanese woman really loves—pumpkin, theater going and sweet potato.

At present there are more than 1,000 potato ovens in Tokyo, and the sale of roast potatoes annually totals more than 1,000,000 yen. In no country in the world can the poor people get pure, wholesome food more conveniently and economically than in Japan. Whether one gets a box of rice with pickles and dry fish in a station or a pot of tea for 2½ cents on the train, it is always clean and attractively served.—Detroit News Tribune.

BEER IN ANCIENT ENGLAND.

When the Law Demanded "Dryne" For the King's Subjects.

Authorities in England formerly took pains that the Londoner should not miss his full share of ale. In the sixteenth century, for instance, the brewer who ceased to brew was faced with the loss of his business. Thus, if the mayor got wind of "any of the said brewers, of their frowarde and perverse myndes, shall at any time hereafter soderly forbear and absteyne from brynging, whereby the king's subjects should be destitute or unprovided of dryne," he knew exactly what to do. The city council was empowered to take over the business as a going concern and to take measures to see that it was kept going.

The cry then and for centuries after was all for beer. There is record of a petition of 1673, for instance, praying that tea, coffee and brandy be banned. The petitioners reasoned that the laborers needed "good strong beer and ale," which "refreshed their bodies and neither did them prejudice nor hindered their work."

Besides, it cost little and was the product of home grown grain, whereas the new fangled drink was expensive and destroyed his majesty's subjects. "not agreeing with their constitution."—Chicago News.

COFFEE

If a lot of people were not satisfied with poor coffee, good coffee would double in price.

You needn't belong to that lot. Enjoy the best coffee there is; not merely best, but best for your taste—or moneyback.

Someone please suggest a stronger guarantee.

Order today; you may forget tomorrow.

nothing helped me until during one of those sick spells a neighbor advised me to take Chamberlain's Tablets. This medicine relieved me in a short time." For sale by all dealers.
