

To prevent disease—
resist disease germs

SMALLPOX is prevented by vaccination — the injection of vaccine. DIPHTHERIA is prevented by the injection of anti-toxin. These enable the body to produce substances which prevent the growth of smallpox and diphtheria germs in the blood. There are many other diseases, nearly, if not quite as dangerous, and far more common — typhoid fever, the grippe, bronchitis, pneumonia, catarrh, rheumatism, and a score of others — that can be prevented less painfully and more easily by making the body strong to resist germ infection.

Rexall
TRADE MARK

Olive Oil Emulsion

(With Hypophosphites)

Is designed for the prevention as well as the relief of disease — by enabling the body to overcome the germs. It, at the same time, strengthens and tones the nerves, nourishes the blood, puts the entire system into a proper healthy condition to combat and successfully resist disease.

Every person not in perfect health has incipient germs of some distressing ailment in his or her system.

Cold weather, over-work, excesses of any kind, are liable to bring about just the conditions under which those latent disease germs will get the upper hand, and put you on your back "down sick."

You who are run-down, tired-out, nervous — You who, though not sick enough to give up, still don't feel good —

You who are apparently well, and want to stay well — Take home a bottle of Rexall Olive Oil Emulsion today, and use it as a means to get well and keep well.

Rexall Olive Oil Emulsion is a real nerve-food tonic.

In this it is different from most other so-called "tonics" which either have no food value and do nothing more than temporarily stimulate you, leaving you in a worse condition than before or, having food value, still

are so unpleasant to take that many people can't keep them down.

Rexall Olive Oil Emulsion is pleasant to take. The Hypophosphites it contains tone the nerves. The pure Olive Oil nourishes both nerves and blood.

Rexall Olive Oil Emulsion strengthens you, puts snap and ginger and vitality into your system. It makes you feel better and stronger. It improves your digestion and your bowel action.

It contains no alcohol nor any dangerous or habit forming drugs.

It is guaranteed to be just as represented above — to do all that is claimed above — to satisfy you in every way, or your money back without quibble or question. Enough for full two weeks' treatment, \$1.00.

Sold only at The Rexall Stores — the World's greatest Drug Stores — and always with a full guarantee of complete satisfaction, or your money back.

Sold in this community only at

WALL PAPER

must always be studied in anything for the home, consequently she is the best judge of what she wants in the way of wall-paper. And here she can get just what she wants at just the price she wants to pay for it. And we have a large assortment of designs in all the present style colorings. We can match any paper she wants matching, too.

SHE HAD A NIMBLE TONGUE.

The Old Duchess Could and Did Swear Like a Trooper.

The old Duchess of St. Albans, who had been the widow of Mr. Coutts, the banker, when the duke, much her junior, in age, married her, was one of the habitual visitors at Talmouth. My first view of her, however, was at the Crief hotel, on her way through to Kenmore, when the duchess and her retinue arrived in eight carriages; for though by birth of no family, she had a most exalted idea of her own importance and when paying a series of short visits to country houses was so convinced of the savage condition of the highlands that she traveled always with her own chef and patissier, who alone were permitted to cook her meals at the inns she stopped at on the road.

I shall not easily forget the sight of the disgracing of the duchess' own harlot when it pulled up at the inn door! First emerged her grace herself, an enormously fat woman; then followed her three nieces, daughters of Sir Francis Burdett, whereof the youngest and best looking became the mistress of her wealth, and Baroness Burdett-Coutts.

These young ladies, evidently in mortal terror of their awful relative—not without reason—followed the duchess in single file, dutifully carrying each some article necessary to her grace's comfort—reticule, cushion, wraps, books, footstool and bag of toilet requisites, the duchess' favorite lap dog and her pet parrot in a cage. After them came her grace's private physician, who traveled always in the same carriage as herself, so as to be on the spot, while the duke preferred the coach box to the company inside—and no wonder!

All the time the duchess' tongue was heard going—scolding, complaining, abusing everybody, from her husband downward, in unmeasured terms. The unfortunate nieces came in for no small share of her harangue and earned painfully any share of her fortune she may have left them in her will, for she swore like a trooper or a Billingsgate fishwife the whole time.—Lady Login in Cornhill Magazine.

CHEMICAL EXACTNESS.

Bunsen's Feet After His Goblet of Solution Had Been Upset.

The remarkable skill in dealing with the material of their experiments that some chemists have is well illustrated by the following story told of the great German chemist Professor Robert Bunsen:

Professor Bunsen evaporated fifty hogsheds of water from the Durkheim spring and carefully isolated from the residue a small quantity of the salts of two very rare elements, caesium and rubidium. He dissolved these salts in a small beaker of water and set them aside on his laboratory table.

One day a friend came to see Professor Bunsen. Unnoticed by the chemist his visitor in leaning against the laboratory table tipped over the beaker and spilled its contents on the floor and on his clothing. The solution looked like plain water, so the man thought nothing of the accident and a few minutes later took his departure.

Shortly after the gentleman had gone Bunsen noticed that the contents of the beaker had been spilled. Instantly he ran out to the street, overtook his friend and brought him back to the laboratory.

With water Bunsen carefully extracted the salts from the sleeve of the gentleman's coat and his underclothing, washed his arm, cleaned off a drop that had splattered on his shoe, carefully washed the floor and the table, collected all the solutions together, purified them and on evaporation found that he had recovered the valuable salts! So perfect was his skill that he had not lost a weighable amount.—Youth's Companion.

Nothing but Fun.

"How's your wife these days?" "Well, she has found a soap that makes washing a pleasure, a machine that makes sewing delightful and a contraption that makes sweeping a dream of bliss. She ought to find life one continuous round of joy."—Louisville Courier-Journal.

Oregon Agricultural College Farmers' Week

DECEMBER 8 to 13, 1913

This will be a notable event in the educational history of Oregon.

Farmers' Co-operation will be the leading topic of a stimulating series of lectures. The week will be crowded with discussions, and demonstrations in everything that makes for the welfare of the farmer and home-maker.

Winter Short Course

JANUARY 5 to 30, 1914

The College has spared no effort to make this the most complete short course in its history. A very wide range of courses will be offered in General Agriculture, Horticulture, Animal Husbandry, Dairying, Poultry, Farmers' Business Courses by Correspondence Without Tuition.

Keeping, Mechanic Arts, Domestic Science and Art, Commerce, Forestry, and Music. Numerous lectures and discussions on FARMERS' CO-OPERATION, at home and abroad, will be a leading feature. Make this a pleasant and profitable winter outing. No tuition. Accommodations reasonable. Reduced rates on all railroads. For further information address

The front-lacing principle (originated by The H. W. Gossard Co.) has accomplished much for the comfort and convenience of woman's dress. Of even greater importance than front lacing, however, has been the genius displayed in the actual designing and making of Gossard Corsets.

So outstanding and thorough has been this work that, great as the front lacing principle is, the Gossard method of design and manufacture transcends it, and the two combined occupy a position so commanding that they are now regarded as an international vogue.

Regardless of the cost—every Gossard Corset conforms to but one standard in style, workmanship and wearing service.

A complete line of the new fall models and sizes always on hand. Prices \$3.50 to \$8.50.
