THE KNOCKER.

Stolen. After God had finished the rattlesnake, the toad and the vampire He had some awful "substance" left, with which He made a knocker. A knocker is a two-legged animal with a corkscrew soul, a water-logged brain and a combination backbone made of jelly and glue. Where other people carry their hearts he carries a tumor of rotten principles. When a knocker comes down the street, honest men turn their backs, the angels weep tears and the devil shuts the gates of hell to keep him out. No man has a right to knock as long as

Charity Begins At Home

There will doubtless be a few families who will spend enough money this Christmas, on friends and and near friends under the mock disguise of duty to make the first payment on a home.

Do you realize how rapidly La Grande is becoming a city of homes. Look about you, you can count a dozen or more of your friends who only a few years ago were tenants.

Don't chill the home getting germ, let it develope and start the new year right. La Grande is not booming but it has a steady substantial growth. Lots are worth double to day what they were three years ago in many sections of this city.

While we have been recognized for years as the pay roll city, our payrolls have annually increased with our growth.

An investment in a La Grande home means a profit, not a loss.

I have several choice properties that are priced right and much of it on very reasonable terms. No excuse for paying rent year after year. You could have bought several years ago. Paying for a home is a pleasure not a burden.
