Don Scott is the premier bowler of La Grande. He has now a record of 278 pins for one game, which puts him in the class of the best men in any of the German cities of the United States known for their prowess in this Teutonic game. Don has been consistent in his work and vies with the best men in the game. The possible number of points for one game is 300 pins, and to do this the bowler must knock down all of the pins each time with the first ball, for ten consecutive times.

Some Real Values

One of the best farms in the center of the valley, nothing adjoining can be purchased for less than \$100 per acre and very little at that figure. Good improvements. Here is a chance where money talks and unless you can command at least \$10,000 in cash there is not much use of considering this.

I have a good farm just north of Elgin that owner will consider city property.

I have a La Grande residence that owner will consider an exchange for Idaho property, prefer something near Boise.

I have a 160 acres of land near Summerville that owner will exchange for La Grande property.

I have Portland property to exchange for La Grande property.

During the last few days I have had listed three extraordinary values in La Grande residence property, the prices are very attractive and if you ever considered owning your home you should call and permit me to present these to you.

Remember this that good real estate has reached its lowest point for years. Can't you read the future just a little. The Currency Bill will soon be in operation, no more panics. The next thing coming is the Farmers Credit System, this means cheap money in the very near future—cheap money always means higher prices.
