EASTERN OREGON PRODUCE CO.

The Evening Observer on sale at Newlin's Book Store.

An opportunity is extended to the women of the city who wish to enroll in a cooking course of twelve lessons under the supervision of Miss Edwards, instructor of Domestic Science and Art of the La Grande schools. All who are interested in home and health cooking are invited to meet Miss Edwards in room 2 in La Grande high school building at 7:30 Tuesday evening, January 27, 1914, when class organization will be effected if so desired by those present. 1-20-5 times

Hot dry air at 72 degrees in a room will cause to the occupant a chilly, uncomfortable feeling, while the same room at a temperature of 62 degrees with proper humidity and plenty of fresh air will be pleasanter and more healthful, besides there is economy in the fuel, consumed. People shut up in steam heated rooms soon become nervous and irritable. One of the most common results from a steam heated apartment is nasal catarrh. The air must be distributed about the room so persons in every part of the house may receive good air.

The warm air furnace system properly installed, is at present the only available system for the proper heating and ventilating of a home. A Torrid Zone Warm Air Furnace will fill all requirements.

LA GRANDE CORNICER WORKS.

Roy Green of Joseph, has purchased the Club tailors from Wilson brothers and has decided to carry on a business similar to that of his predecessors.
