BIG CREAMERY MEN WARNED

DAIRY COMMISSION CLAIMS AN UNFAIR WAR.

Small Creameries Up State Suffer By Portland Creamery Tactics.

A stern warning to the creamery interests believed to be attempting to stifle competition in the butter market is contained in the last bulletin issued by Dairy and Food Commissioner J. D. Mickle.

"It is time that the creameries in Oregon should cease trying to cut each other's throats," he says. "With quotations in Portland at 32c and butterfat at shipping stations at 36c, there is surely something wrong. Parties engaging in such work are either underrating their tests to the dairymen or are using unfair means to destroy weaker creameries."

"We do not wish to be drawn into this fight, but we warn all that unless parties indulging in such work change their ways, we will carry the truth to the dairy farmer and we will go after it just as vigorously as we did into the foreign butter question."

Dairy Industry at Stake. "The dairy industry of Oregon is at stake and we are looking for the future welfare. Also the consuming public has some rights in the matter that shall not be ignored."
