BETTER SPIRIT IN WHEAT PIT

WORLD'S WHEAT CENTERS ARE OPTIMISTIC.

Prices Change But Little, Yet Conditions Generally Improved.

There is a generally better feeling in the wheat trade in Chicago this week. While options showed little change in the price, the situation was somewhat stronger at all world wheat centers. Closing prices at Chicago were at an advance of 1/4¢ for May and 1-8¢ for July. Market opened yesterday unchanged for both options.

Shrinkage In Transit.

"If cattle are to be in transit 24 hours or longer, it is a good plan to feed about two bales of nice bright hay for each carload a few hours before loading," is the advice of the department of agriculture. "There is no way of entirely preventing the shrinkage, but by judicious care in the handling and feeding of the cattle just previous to the shipping the shrinkage may be lessened. The shrinkage of fed cattle does not differ greatly from that of range cattle fed for equal periods of time. Cattle fed on silage have a larger gross shrinkage but usually 'fill' so well when fed at the market that the net shrinkage is small. Pulp fed cattle shrink more in transit than any other class of cattle and also show a greater net shrinkage. For a long journey the common method of unloading for feed, water and rest is preferred to the use of 'feed and water' cars."
