To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious disease. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.—Adv.
