

Specify - Electric - Lights
-For Your New Home-

If you are building this year specify electric lights. It is safe to say that 90 per cent of the houses built in La Grande this year will install them. No home is modern without them. They are as important as sanitary plumbing.

Good lights are equally important, however, if you happen to live in a rented house. Your landlord owes it to you, and you owe it to yourself to have nothing but the best light. Electric lights are easily installed and will prove a source of lasting satisfaction to you. Call or phone Main 34.

BOILER SHOP
ABOUT READY

NEW EQUIPMENT ADDED TO THE BOILER SHOPS HERE.

Flues Can Be Welded and Cleaned Locally—Other News.

Within a week O.-W. facilities here will be increased and enlarged to the extent that locomotive flues will no longer have to be sent to the Albina shops for welding and cleaning. The new boiler shops, adjoining the machine shop building, and 50x60 in dimensions, carries equipment to weld flues and clean them, so that the boiler shop here will be practically in shape to handle any line of work it may be called upon. Joe Whitby is in charge of the boiler shops.

President Farrel and the galaxy of O.-W. officials, which yesterday went to Huntington on an inspection tour, passed through La Grande going west last night and are today in the vicinity of Walla Walla on the Washington division.

The new boiler, making the third in the plant here, is now about complete and will help supply the steam for the yards, and meet the added call for heat from the depot where radiators have recently been installed.

Master Mechanic Ed. Thomas, recently promoted to that position, has gotten into the swing of his new and added duties, and the reorganization and promotion of several round house and division officials has now reached the smooth even tenor that marks the perfected system of details of arrangements of this sort.

Few, if any, changes have been made of late in the engineer and firemen ranks. Business is picking up and all railroad crews will soon be drawing down bigger checks than they have been doing during the winter lull in shipping.

The Return of Blood Eruptions

No Reason Why Anyone Should Suffer Such Disheartening Experiences.

No case of poisoned blood is ever cured until the last destructive germ has been eliminated from the system. And the only remedy that is assimilated in the tissues and stimulates cellular activity to overcome harmful germs is the famous blood purifier, S. S. S.

The skin is but a fine network of tiny blood vessels, and the specific action of S. S. S. is declared by eminent authorities to be a pronounced stimulation of the activity of these cells.

The reason for this is in the peculiar action of S. S. S. which enables the cells in the skin to select from the blood the nutrient it requires for regeneration.

Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kidney troubles, S. S. S. directs the local cells that the poison is rejected and eliminated from their presence.

This fact has been demonstrated year in and year out in a wonderful number of cases of severe skin eruption that had seemed to be incurable.

You can obtain S. S. S. at any well stocked drug store. If you insist upon it, but be sure you are not talked into something "just as good."

S. S. S. is prepared by the Swift Specific Co., 215 Swift Bldg., Atlanta, Ga.

Write for their illustrated book on skin diseases.

I hereby announce myself as a candidate for County Judge of Union county, subject to the votes of the Republican party, at the coming primaries.

Should I be nominated and elected I would give the office my entire time.

I believe in good county roads but favor permanency in construction.

I believe in retrenchment along all lines of county expenses so far as practicable.

Adv. W. W. RANDALL.
