PENDLETON HAS TERMINAL HOPE

BELIEVED THAT CITY WILL GET TERMINUS.

Coyote Cutoff Said to Mean New Terminal on O.-W.

Pendleton, March 13 — Pendleton has an excellent chance of securing the freight division terminal when the Coyote cutoff is built and the matter will probably be decided by the railroad officials within a few weeks.

Work on the construction of the cutoff was started yesterday when several carloads of equipment belonging to Twohy Bros., was unloaded at Coyote.

This in substance was the news brought to the city when President J. D. Farrell, Vice-president and General Manager O'Brien and other officials of the O.-W. R. & N. arrived here by special train shortly before 4 o'clock. They were out upon a semi-annual inspection and after a stop of an hour in the city the special pulled out for a trip over the line east of this place.

"We are not yet prepared to make an announcement regarding where the freight terminal will be," said J. P. O'Brien while here. "We will be here again within 10 days or two weeks and will have the chief engineer along. At that time we will go all over the situation and see if sufficient ground for the yards may be had here. It will be necessary to provide for future needs as well as for the present."

This statement together with private statements made by the officials to prominent local businessmen who met them yesterday indicate Pendleton is being strongly considered as the place for the terminal but that it remains to be seen whether or not there is sufficient room here for the company's needs.

Learning that the railroad officials were to arrive here yesterday President J. V. Tallman gathered a half dozen local business men to meet them and assured them of Pendleton's desire to secure the freight terminal and to make every reasonable effort to aid the company in the event it wishes to bring the yards here.

That equipment for the work to the cutoff was unloaded near Coyote yesterday by Twohy Bros was stated by Mr. Brandon. The cutoff is to start from a point two miles west of Coyote station and is to strike the main line one and a half miles west of Stanfield. The track between that point and Echo will be largely or wholly rebuilt. The contracting company will do all of the grading and excavating work while the company will lay the track itself. It is the intention to have the work all completed by the first of the year.

To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious disease. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.—Adv.
