DEMOCRATS SLOW TO BECOME A FACTOR IN COMING PRIMARIES

Democrats are showing little interest or concern over the primaries in this section. Very few democrats have stepped to the front and made their little bow for any of the offices, district, county or sectional. Republicans and progressives have the stage almost entirely to themselves. Only three have actually filed their nomination petitions for county offices, though most of the district candidates have done so, but at Salem. One county judge, one justice of the peace and one county representative have filed with the county clerk, but that is all. However, there are many others in the game, who have yet to make their final application for candidacies.

In the district races, C. A. Barrett, republican, is the only known candidate for joint senator from Union, Umatilla and Morrow. George T. Cochran will file his petition at Salem for renomination to the office of water superintendent for the Eastern Oregon district at once.

In the joint representativeship from Union and Wallowa counties there are four candidates: Dr. Mayer and Attorney Trill, both of Wallowa, and Al Jones and H. B. Davidhizar, both of Joseph, all republicans, have become active candidates. No democrats have appeared on the scene.

In the county representative race from this county, W. B. Sargent, this city, and Attorney L. Denham of Elgin, make up a duo of republican candidates. No democrats have signified their intentions, publicly, of entering the primary race.

Circuit Judge J. W. Knowles is now out officially on the republican ticket for re-nomination and J. D. Slater, a local attorney, is credited with being the democratic aspirant for the office.

W. W. Randall is now a candidate for the office of county judge through the republican primaries and though several democrats are said to be actively seeking the honors, none have yet made the steps final.

Other known candidates who have yet to file the petitions, include Ed. Wright, republican, for county clerk; A. Hug, republican, for sheriff; David Proctor, republican, for recorder. These are present incumbents. J. M. Hilts would be the republican coroner nominee.

REX HALL

"Where You Learn to Dance."
Dancing assemblies each Tuesday and Saturday night.
Class for regular course each Wednesday night.
Until further notice, class work in one of the latest dances—the one-step, each Thursday night from 8 to 10.
Private Lessons by appointment. Rates quoted on application for instructions.
Calico Ball, Tuesday night, March 17.

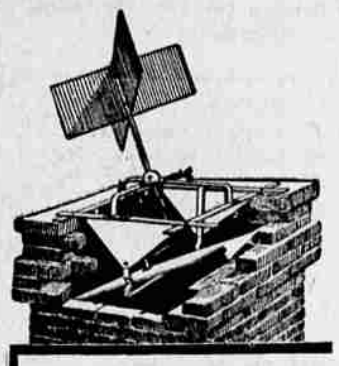
Chimney Sentinel
Fuel-Saver
(AUTOMATIC)



No matter how hard the wind blows, this device automatically regulates the chimney draft to just the right velocity.

This uniformly correct draft makes any fuel burn steadily, evenly and without waste; it prevents waste. That means a saving of 25% on fuel bills (by actual test), a uniform, comfortable temperature in your home, less time and labor spent in fixing the fire.

It's simple in design, easy to install, lasts a lifetime. Price from $6.00 up. Get one now. It will mean a big saving of fuel during the windy months of February, March and April.

Ask for book containing reports of scientific tests made by well known heating experts and University engineers.

WOMEN SLOW TO REGISTER.

Very Small Percent of Registrations are Those of Women.

Women are not taking advantage of their rights of equal suffrage to any great extent, if registration is an infallible index. A bare ten percent of the registration so far represents women. Out of the total registration to date but 82 women have fulfilled the legal requirements to participate in the election of county and state officers or in the making of new laws or in passing on laws enacted by the legislature. Union county, when compared to other counties in the western part of the state, is lagging behind in this respect, for it must be presumed that the total number of women eligible to cast the baliot should be somewhere in the neighborhood of that of the men. The figures are, men, 668; women, 82.

Constant agitation on the part of the press in western Oregon has brought a better comparison and it is hoped the figures will improve for this county once the fever becomes general.

Citizens of La Grande desiring to register, must do so after the county court house at the county clerk's office before the first of May. Books will close on the 30th of April at 5 p. m. After the primary election the books will again be open until 30 days prior to the general election which is in the first week of November. County Clerk Ed. Wright requests that voters make it a point to register early and not postpone this matter until the last day before closing the books, which usually is accompanied by more or less confusion and when time for explanations is limited.

Outside the city of La Grande notaries public who have secured the requisite blanks and permission, may register voters.

CALICO BALL INTERESTS MANY.

Rex Hall to Be Scene of Gaiety Tuesday Evening.

Carrying out the idea of a real Calico ball, Manager Sherwood announces that next Tuesday evening will witness one of the most pleasant events ever yet held in Rex hall. While the restrictions only require that calico of some nature be worn, it is understood many of the ladies are preparing nifty calico gowns for the occasion. A calico necktie is sufficient to come up to the requirements but many choose to indulge in more of the calico feature than the necktie. 3-13-1t

UNION FIRES BEFORE COURT

RESULT OF DRIER FIRE ISSUE IN COURT.

Much of the Day Will Be Taken Up by Hearing Insurance Case.

Testimony in the case of the Hartford Fire Insurance company and others vs. the Central Railway of Oregon has brought out no startling developments. While plaintiffs attempt to show that immediate sparks from the engine of the Central Railway of Oregon were not the immediate cause of the fire, they contend that the engine was the proximate cause. In other words, if the engine had not emitted the sparks and set the drier on fire, the barn would not have been set on fire. Embers from the burning prune drier are alleged to have blown over a distance of about a quarter of a mile north of the drier, across Catherine creek, over trees, etc, and set fire to the barn.

The defense is attempting to prove that children and tramps were near the building shortly before the fire; that the engine was in proper condition and that the fire must have been caused by some other agency.

Most of the day will be consumed in taking testimony and it is hardly likely that the case will be ready for the jury before tonight.

In an effort to save money and to expedite matters Judge Knowles has been holding night sessions for the past two weeks or more and it is likely that another night session is in order in the above mentioned case. Attorneys have been busy for a month and the end is not yet in sight. It is the intention of Judge Knowles to clear the docket before closing this term of court.

LATIN SCHOLARS TO ACT.

Playlet to Demonstrate Ability of Scholars in Dead Ianguage.

Tonight at the high school auditorium; the scholars of the Latin department will demonstrate their ability to wield a tongue now classed among the dead languages. But the audience will be supplied with a synopsis and will be able to follow the entire play. An English playlet is to follow this and is said to be a fine production. All parts will be taken by high school pupils and the show promises to be an eye opener in many respects. The entertainment will begin at 8 p. m.

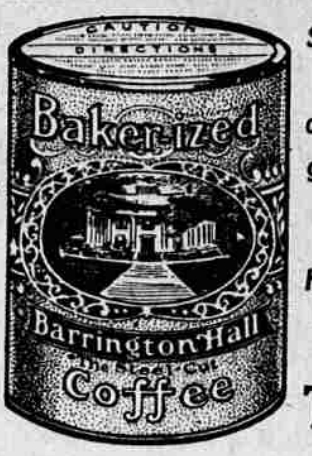
---Jones and Rabone---

A Coffee you can drink to your heart's content without fear of any ill

45c POUND



See window display of ordinary coffee ground compared with Barrington Hall Steel-Cut

85c Two Lb.

When the prudent housekeeper stops to figure out the cost, she finds that while **Barrington Hall the Bakerized Coffee** costs more per pound than inferior coffee, **It Costs Less Per Cup**, because you get all the flavor from each particle of Barrington Hall. There is no waste. The general rule in coffee making is to use six parts water to one part coffee. With Barrington Hall the same strength is obtained from one part coffee and eight parts water. In other words B. H. coffee makes a third more coffee in the pot, than a like quantity of coffee ground in the old way.
