DEER CAUGHT IN BARBWIRE

WALLOWA RANCHER CAPTURES INJURED ANIMAL.

Amputation of Injured Leg Follows Capture in Wire Fence.

Wallowa, Ore., March 16.—(Special.)—While trying to jump a barb wire fence on the Couch place south of town, a deer became entangled in a wire and was made a prisoner. It was first seen by school children on their way to school and they notified Murlin Wealty of their find, who procured a rope and caught the deer, taking it to his farm near by. The deer sustained such injuries in the hind leg from the cutting conditions of the wire, that Dr. McDonald was forced to amputate her leg. Last reports are that the deer is getting along as good as could be expected.

The streets are being worked this week as they are dry enough and have become cloddy. The six-horse grader is being operated by Tom Ell-edge and Mr. Boling. The track at the school house was smoothed and put in good condition.

To the Housewife.

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious disease. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers.—Adv.
