

Specify - Electric - Lights -For Your New Home-

If you are building this year specify electric lights. It is safe to say that 90 per cent of the houses built in La Grande this year will install them. No home is modern without them. They are as important as sanitary plumbing.

Good lights are equally important, however, if you happen to live in a rented house. Your landlord owes it to you, and you owe it to yourself to have nothing but the best light. Electric lights are easily installed and will prove a source of lasting satisfaction to you. Call or phone Main 34.

GOVERNMENT SELLS TIMBER

OVER A MILLION FEET FOR
SALE THIS SPRING.

Timber located on Elgin Branch to Be Disposed of Shortly.

The forest service is offering for sale 120,000,000 feet of timber on the Wallowa national forest in Eastern Oregon. The timber consists of 102 million board feet of yellow pine, 10,000,000 feet of Douglas fir, 7,000,000 feet of western larch, and 1,000,000 feet of lodgepole pine, white fir and Englemann spruce and is located on the watersheds of Davis and Mud Creeks north of the towns of Wallowa and Enterprise, on the Elgin branch of the O. W. R. & N. railroad.

The timber will be advertised for approximately 60 days and prospective purchasers will be given until June 15 in which to examine the timber and submit bids.

The timber is offered at the initial stumpage rates of \$2.50 per M. for western yellow pine and 50 cents per M. for sawtimber of other species, 5 cents each for No. 1 and 2 cents each for No. 2 railroad ties, and 1 cent per linear foot for poles. The successful bidder will be given until January 1, 1916 for the completion of preliminary improvements and after that date a period of nine years for the cutting and removal of the timber. The agreement of sale will provide for possible readjustments of the initial stumpage rates every three years of this nine year cutting period.

Notice to Contractors.

NOTICE IS HEREBY GIVEN, that sealed bids will be received by the Commission of the City of La Grande, Oregon, for furnishing and laying 4,800 lineal feet of (8) eight inch Lateral Sanitary Sewer in Sewer District No. 2 of Section No. 3. Said Sewer to be laid in accordance with the plans and specifications now on file in the office of the City Recorder and under the supervision of the City Engineer. All bids to be in by 7:30 o'clock p. m., Wednesday, April 29th, 1914, accompanied by a certified check for 5 per cent of the amount bid. The Commission reserves the right to reject any and all bids.

By order of the Commission, April 8th, 1914.

LEE WARNICK,
Recorder of the City of La Grande,
Ore.

There's No Corn That "GETS-IT" Won't Get

No More Fussing, Plasters, Salves and Corn Pains. Try the New Way.

"Just look at the way that corn comes off!" That's what you'll say when you try wonderful "GETS-IT" on that corn you've tried so long to pry off of your toe. It's

Madam, For Those Corns That Make You Jump Out of Your Shoes, Try Wonderful "GETS-IT," easy to apply "GETS-IT"—one, two, three, and it's done! The corn begins to shrivel, away she goes, surely, absolutely. A few drops will do it. "GETS-IT" never makes toes red and raw. Corn pains go! It means the end of cutting and gouging of corns, the end of sticky plasters that don't work anyhow, the end of salves that eat up your toes, no more "harness" or fussing. Try "GETS-IT," the new, sure way, for corns and calluses.

"GETS-IT" is sold by all druggists, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

FOR SALE BY ALL DEALERS.

CHILE'S HANGING GARDEN.

Wondrous Beauty of Santa Lucia Park in Santiago.

Santiago, with its 1,000,000 of population, fifty miles inland from Valparaiso, is the capital of Chile. It lies in a great amphitheater forty miles long and eighteen miles wide and is enclosed by walls of lofty mountains covered white with snow. Outside of Rio de Janeiro, no capital in the world has a finer situation. Standing in the central plain, it looks out on one side over fertile fields, sloping toward the coast range and on the other it looks up to the gigantic Cordillera 19,000 feet above it, furrowed with deep gorges and covered with snowy wastes.

There are beautiful drives and parks and pleasure resorts on every hand. The Alameda Avenida Delicias, 600 feet in width, runs the entire length of the city. The finest private houses front on this wide boulevard. They are built in Spanish style with courtyards full of flowers and shrubs. The city has sixty-seven miles of electric car lines. Most of the streets are paved with asphalt. The policemen carry swords. The city has an air of law and order. A beautiful park was given to the city by Senora Isadora Cousina. It is called the Quinta Normal.

But the park of parks in Santiago is Santa Lucia. For striking and picturesque beauty it is scarcely equaled anywhere else in the world. It is a steep and rocky hill rising 500 feet right from the center of the city. The original sandy soil has been added to by skillful gardeners until it has become an exquisite park, lifting its verdurous masses like a hanging garden high above the city. Flowers and creeping vines trail over rocks in wild profusion. Fountains glisten in the sunshine, marbles gleam against the green. Grottoes invite you to their shade and winding paths allure the traveler to the very summit.

Here, at the top of this green rock, a splendid vista of the city lies at your very feet. You hear the hum of traffic and the buzzing wheels of commerce and out beyond you see a fertile plain, while on the far horizon the mighty summits of the snow capped Andes cut their silhouettes against a sky of blue. Beautiful for situation is Santiago, unique and fortunate in its Santa Lucia park.—Peter McQueen in National Magazine.

Three Atmospheres.

The atmosphere is divided by scientists into three parts. The first extends from sea level to about 10,000 feet high. In this layer are almost all the water vapors or clouds and all the dust. In it all the storms take place. The temperature tends to decrease, but very irregularly. The second layer extends to between six and seven miles high. In it are the "cirrus" clouds, and the temperature decreases uniformly. Man cannot go beyond it.

These two layers together are called the troposphere, because in them all the vertical movements of the air take place. Beyond them is the stratosphere, in which occur any movement of the air in planes parallel to the earth's surface.

Strathcona's Romantic Marriage.

The marriage of Lord Strathcona was a romance. He met the lady when he was twenty-nine and living on the coast of Labrador. She was a widow and had a little son. There was no priest or church within 1,000 miles and the marriage was a simple contract without ceremony. It was for this reason that when the high commissioner became a peer in 1897 a remarriage was held to be necessary and it was solemnized with the full ritual of the Church of England. The Labrador marriage was, however, ratified by special act of parliament.—London Tatler.

Whistler as a Courtier.

Most of the stories of Whistler are rather "wasplish," but one recalls a story that shows him in the light rather of a graceful courtier.

It happened that the then Prince of Wales paid a visit to an exhibition of pictures that was held by an art society of which Whistler was the president. Whistler received the prince at the door, and as they entered the gallery his royal highness asked:

"What is the history of your society, Mr. Whistler?"

"Sir," replied the artist with a courtly bow, "its history begins today!"

Noah and the Animals.

Few people will say that Noah took more than two of each kind of animal and fowl into the ark, yet here is the Bible on the subject (Genesis vii. 2): "Of every clean beast thou shalt take to thee by sevens the male and his female and of beasts that are not clean by two—the male and his female." (Genesis vii. 3): "Of fowls also of the air by sevens—the male and the female to keep seed alive upon the face of the earth."

Cellar Champion.

A seven-year-old boy coming from school one day informed his mother that half his class had been promoted. His mother asked him whether he had been one of the number.

"No," said he, "and I'm glad I'm not, cause I'm the smartest one left."—New York Post.

There is no true test of roofing but the proof on the roof—but

Certain-teed
Quality Roofing Durability Guaranteed

is guaranteed for fifteen years—it will last longer. Roofs don't wear out, they dry out—and it is for this reason that **Certain-teed** Roofing is made with a soft asphalt center and a harder asphalt protecting surface. It dries out very slowly because these asphalts are blended as found best after a quarter century experience.

The three biggest roofing mills in the world back up this guarantee. That protects us as well as you. It assures us of goods on which our customers can depend and we hold their patronage.

We get this kind of responsibility behind the goods we carry whenever possible—on tools, on builder's hardware, paints, oils, brushes and everything in the building line you require. You know our square-deal policy. Buy your building materials here.
