

Specify - Electric - Lights
-For Your New Home-

If you are building this year specify electric lights. It is safe to say that 90 per cent of the houses built in La Grande this year will install them. No home is modern without them. They are as important as sanitary plumbing.

Good lights are equally important, however, if you happen to live in a rented house. Your landlord owes it to you, and you owe it to yourself to have nothing but the best light. Electric lights are easily installed and will prove a source of lasting satisfaction to you. Call or phone Main 34.

PALMER LOGGED OFF LAND

\$15 per Acre - - 10 Years Time

Deep - - Rich - - Black Soil

Altitude and Climate Same as Grande Ronde Valley

These thousands of acres were formerly all homesteaded and many quarter-sections years ago were maintaining families.

The George Palmer Lumber Company has taken off the big trees, leaving the land in easy shape for clearing. This excellent land is now offered at much more liberal terms than the Government tendered the original settlers.

This is certainly an unusual chance to secure a fine farm and home with very little capital. It is also an exceptional opportunity for profitable investment.

By the end of the ten years which you have to pay for the land, it will have increased in value 500 per cent.

It is selling rapidly. Everyone who sees it praises it highly.

CALL AND INVESTIGATE.

If interested we will take you to look over the land.
