BIG AGRICULTURE LAND OPENING

TWELVE HUNDRED AND FIFTY TRACTS of five and ten acres each to be granted to prospective settlers in throwing open Twenty Thousand Acres of Rich, Southern Georgia Land, which is admirably adapted to the growing of celery, sweet and Irish potatoes, canteloupes, water melons, corn, oats, cotton, hay—in fact, all staple crops grown in this fertile section, as well as a large variety of semi-tropical fruits, and the famous immensely profitable paper-shell pecans.
 Providing you are eligible under the classifications prescribed by us, you are now offered an excellent opportunity to break away from the drudgery and toil of a small wage, or working for the benefit of landlords, and go back to a land of plenty, to which, if granted, you will hold a warranty deed and abstract.
 The best security on earth is the earth itself, and land is the basis of all wealth. Owners of productive lands are benefiting by the increasing high cost of living, while others are suffering from it.

An Opportunity to Secure Rich Productive Land Without Capital

You will not be required to leave your present surroundings now. All we ask of those to whom we grant tracts is that they plant, or arrange to have planted, a crop of one of the above-mentioned products within three years, after which we will have it operated (harvested and replanted) for grantees, in consideration of 25 per cent. of the net profits derived from the sale of the crops, thereby allowing the grantee to pursue his or her present occupation until such time as they determine just what the yield of their acres amounts to. Consider what this may mean as a source of income, when statistics show that the yield of one acre of celery amounted to \$1,268.45, and that one acre of well-cared-for paper shell pecans, in full bearing, should net its owner as high as \$500.00 per year. We are of the opinion that after it is proven by actual results obtained in operating the land that they will need no further urging, and waste no time in locating in this land of plenty. We also require grantees to occupy the land within ten years, or sell it to some one who will occupy it; otherwise it reverts back to the grantor.

and other railroads when they granted their lands, and we expect to benefit thereby, as well as the ones who will receive the tracts.
 We have also planned to develop what is designed to be the best equipped, most up-to-date, scientific, commercial farm and orchard in existence. It will consist of six thousand acres, and will be included in this opening. All who register and receive tracts will get the benefit of the experiments and scientific methods in vogue thereon. While we are arranging to prevent over-registration, we will avoid many disappointments, such as occurred in other land openings conducted by the United States Government and railroads, by granting those who registered in excess of the number of tracts to be granted, an interest in this commercial farm and orchard enterprise, in the hope that they may later locate in one of our town sites.
 Examination of the land will cheerfully be permitted, and the opening will be held at Brown-town, Wayne County, Georgia, one of the stations of the A. B. & A. Railroad, which is located on this property, and will occur as soon after the closing of registrations as arrangements can be made.
 The presence of those registered will not be necessary at Brown-town on the opening day, unless they wish to attend, for there is no favoritism shown anyone. It will be conducted by a committee selected for the purpose, and those registered will be notified of what they have been granted, as soon as possible.
 With the ever-increasing population of this country there is no corresponding increase in the area of land and naturally as the population increases and seeks the land in pursuit of health, happiness and independence, it will continue to be harder to secure.
 The prosperous and contented class in Europe to-day are the descendants of those who secured land there when it was plentiful, while the descendants of those who obtained no land are now the peasants and slaves. You must realize that this may be your last chance to secure land in this country without a large outlay of capital, so it should not be necessary to urge you to act at once by forwarding us the application for registration attached to this announcement.

The land included in this opening is located directly on and adjoining the Atlanta, Birmingham and Atlantic Railroad, about twenty-five miles west of Brunswick, a thriving city of fifteen thousand, having direct steamship service to New York and Boston, and excellent railroad transportation facilities to all points. The average temperature for six months of the year, from April to October, is 77 degrees; the climate is most healthful, delightful, and invigorating, and there is an ample rainfall of 51 inches per year.

Our Aim Is for Mutually Beneficial Results.
 As we are extremely desirous of having settlers locate on this property, and assist in its development, and thereby greatly increase the value of surrounding and intervening property, which we will hold, and to increase the traffic along the Atlanta, Birmingham and Atlantic Railroad, and thus facilitate the service, we feel warranted in granting these tracts to those who register with us. We also have in mind business and residence plots which we will offer for sale after the opening, but which will not be included in it. We have "money-making afterward" considerations in this liberal-minded opening, similar to those of the Northern Pacific
