

**Specify - Electric - Lights**  
**-For Your New Home-**

If you are building this year specify electric lights. It is safe to say that 90 per cent of the houses built in La Grande this year will install them. No home is modern without them. They are as important as sanitary plumbing.

Good lights are equally important, however, if you happen to live in a rented house. Your landlord owes it to you, and you owe it to yourself to have nothing but the best light. Electric lights are easily installed and will prove a source of lasting satisfaction to you. Call or phone Main 34.

**AEROLUX No-Whip-Porch SHADES**

The wind cannot disturb your moments of repose, because these shades do not flap or rattle. Their variety of delicate colors make them adaptable to any porch and its furnishings. They are impervious to all weather conditions and make ideal out-door sleeping rooms of any porch. A telephone call will bring the "Aerolux" man who will show you the color samples and then if you wish, take the measurement of your porch. Not expensive. The ordinary porch about \$10.00.

We favor D. Ward King Plan for good roads. Hear him Saturday, May 2nd.

**KING IN TOWN**

(Continued from Page 1.)

Baker where he had a good lecture and a good demonstration yesterday and this morning before boarding an automobile for a ride over the valley to Elgin where he delivers one of three lectures in this county, he gave an interview over his breakfast table. "Well, I am well" said the man who 18 years ago 'discovered,' rather than 'invented,' the split road drag. "We have had splendid meetings everywhere; I am going on to the coast speaking at all the big cities and the small ones that want me; get me a good crowd for the Saturday afternoon lecture in this city and I will do the rest."

Thus, one might epitomize his interview. Any time an interviewer gets far from the split log drag topic, Mr. King gets one back into line again. Over his grape fruit he outlined his work for this county. "I will not deliver any two similar lectures in this valley. Next Saturday I shall tell in detail how I came to invent the drag—my subject will be 'the hog wallow.' I am much pleased that you people have nerve enough to close your stores on Saturdays that the crowd may be big—the demonstration will follow the lecture."

Inner man satisfied, the man from Maitland—Maitland is the postoffice three miles from the Missouri farm on which the split log drag was conceived—boarded County Judge Henry's automobile, and with John Collier, vice-president of the commercial club, went to Elgin for the lecture and demonstration there today.

Tomorrow he speaks at Union and the day following comes to La Grande for his lecture and demonstration. The lecture will be delivered at the L. D. S. church and the demonstration to follow will be in the heart of the city.

The lecture begins at 1:30.
