## Skin Sufferers—Read!

We want all skin sufferers who have suffered for many years the tortures of disease and who have sought medical aid in vain, to read this.

We, as old established druggists of this community, wish to recommend to you a product that has given many relief and may mean the end of your agony. The product is a mild, simple wash, not a patent medicine concocted of various worthless drugs, but a scientific compound made of well known antiseptic ingredients. It is made in the D.D.D. laboratories of Chicago and is called the D.D.D. Prescription for Eczema.

This is a doctor's special prescription—one that has effected many wonderful cures.

The effect of D. D. D. is to soothe instantly, as soon as applied; then it penetrates the pores, destroys and throws off all disease germs and leaves the skin clean and healthy.

We are so confident of the marvelous power of D. D. D. that we have taken advantage of the manufacturers guarantee, to offer you a full-size bottle on trial. You are to judge the merits of the remedy in your own particular case. If it doesn't help you, it costs you nothing.

D. D. D. Soap is made of the same healing ingredients. Ask us about it.

## CASH PRIZES FOR BEST ROAD

COMMERCIAL CLUB STIMULATES ROAD MAKING.

Club Sets Pace by Keeping Up One Piece—Cash Paid to Winners.

Valuable cash prizes have been hung up by the La Grande Commercial club for the best results from the King drag. To show what can be done, the club is, at its own expense, maintaining a piece of road just East of La Grande, and knowing that results can be obtained, the directors have offered valuable prizes for the one that does the best work. Furthermore, a large number of farmers are deeply interested and have promised to compete. The rules and the prizes, follow:

A prize of \$50 in gold for the best mile of King drag road within eight miles of La Grande.

A prize of \$25 in gold for the second best mile of King drag road within eight miles of La Grande.

A prize of \$15 in gold for the best one half mile of King drag road on each rural route out of La Grande.

A prize of 10 in gold for the second best one half mile of King drag road on each rural route out of La Grande.

No one piece of road to receive two prizes.

No prize-taking road to compete for the same or a lower prize next year.

The following farmers and business men in the county have signified their willingness to drag roads:

W. D. Campbell, A. S. Bradway, G. E. Becker, Steve Hills, J. J. Nunn, J. D. Heinrich, L. H. Russell, William Miller, H. Bergman, J. A. Butcher, G. Chandler, H. Vehrs, Robert Clark, A. Fine, E. De Long, J. A. Hollman, Alex Lindsey, Samuel Morse, W. R. Leadbetter, Frank McKennon, T. Wallsinger, W. J. Case, A. H. Parsons, C. A. Gallaway, Emil Miller, William Hindman, Joe Halgarth, Chas. Moore, J. B. Breshears, J. A. Horn, Adolph Waerty, F. L. Wade, Jap Chandler, Rudolph Hugg, Marshall Hoffman, R. H. Rohrig, J. W. Baxter, Fred Ames, W. J. Townley, O. E. Zeek, L. Levy, Robert Withycombe, Alec Slater, L. A. Mulvehill, John Welch, Chas. E. Haggerty, Chas. Davis, L. L. McKennon.

The commercial club of La Grande has undertaken to maintain a half mile of road leading east from the end of the macadam on what is known as the Gekler lane. This has always been considered a bad piece of road in muddy weather and it is the intention of the club to use this drag after each rain. D. M. Clark the secretary had it dragged about two weeks ago and it shows a wonderful improvement. Several farmers coming over the day after it was worked on could not help but notice the difference in the condition. This half mile was worked in about three hours' time with one team and man and shows what can be done if the people in the county will only follow the advice given by Mr. King in his lectures in the county recently.

### Work of the Inventors.

Manufacturers are almost daily in receipt of communications from inventors inclosing patent specifications covering an invention aimed to improve their product. It is a mistake on the part of manufacturers to view such inventors as impostors. The position that "an outsider cannot know more about our own business than ourselves" is a fallacy that has no place in modern industrial management. If it were necessary to prove that such a position is a fallacy thousands of inventions could be cited whereby improvements, many revolutionary, in industrial processes and products were first conceived in the minds of men not even remotely connected with the industries most vitally affected and benefited thereby.—American Machinist.

### In the Balance.

"Give me two seats in the balance," said a man, stepping up to the box office window the other afternoon.

"In the what?" asked the ticket seller, fearing that she had misunderstood.

"I said I wanted two seats in the balance," said the man.

The ticket seller racked her brain trying to solve the puzzle, and, finally giving it up, she asked the man to explain just what he wanted.

"On this sign out here it says balcony 25 cents for the first three rows. It says, balance 15 cents. I want two in the balance."

Then the ticket seller understood.—Exchange.
