Music at Lodge Tuesday.
The Moose will have a musical program at their regular lodge meeting tomorrow night. The meeting was erroneously announced for tonight.

Birds That Shine in Dark.
That certain birds of prey are sometimes luminous at night is a fact well known to observant naturalists. It is explained by the presence on their feathers of the phosphorescent spores of certain fungi that grow upon the trees in which they roost. But the Bulletin of the National Acclimatization Society of France records the observation of a white swan that was luminous all night from July to October of last year, while none of the other birds that inhabited the same lake could be seen after dark.—St. Louis Post-Dispatch.

Envious.
First British Workman—I see it says 'ere a workingman in France 'as just woke up aht ov a trance larstin' seventy-seven days, an', though 'is wife repeatedly called 'im by name, 'e was oblivious to the fac' that she was there. Second British Workman—Marvelous! Wot a gift, 'Erbl—London Telegraph.

Recuperation Often Necessary.
"So you favor an absolutely honest administration of city affairs?"
"Sure," replied Boss McNabb. "That is, for awhile. You can't keep taking it from the people all the time. You've got to let up now and then and give them a chance to get some more."—Washington Star.

Pure River Ice.

Mrs. Sherwood Williams and children who have been in the city visiting Mr. and Mrs. B. W. Grandy, returned home this morning. Mr. and

Fred Young is now running his ice wagon. 'Phone Black 631. 5-13-tf.

Build a House Which will Sell Readily

An attractive House will command a better price by several hundred dollars than the common kind, and it costs no more. Some very poor houses are built of the best lumber.

Good material does not make a good building unless understandingly used. A good builders price is very little in excess of the poorest and the satisfaction of having an attractive, convenient and well constructed house is well worth the difference.

H. E. ROSKAMP,
Contractor & Builder
