THE PANAMA CANAL

This wonderful waterway cost \$375,000,000 and involved a nine-mile cut through a mountain, the erection of six pairs of gigantic locks, and a dam 150 feet high and a mile long. The distance it saves—6,000 miles—will revolutionize commerce and place the United States first among the leading nations of the world. The Anheuser-Busch plant cost about one-seventh as much as this canal—one was built by a nation, the other by an institution.
