It loosens up the tight feeling in your chest—stops stuffy, wheezy breathing—eases distressing, racking, tearing coughs—soothes the irritated inflamed bronchial tubes and air passages.

Build a House Which will Sell Readily

An attractive House will command a better price by several hundred dollars than the common kind, and it costs no more. Some very poor houses are built of the best lumber.

Good material does not make a good building unless understandingly used. A good builders price is very little in excess of the poorest and the satisfaction of having an attractive, convenient and well constructed house is well worth the difference.
