Build a House Which will Sell Readily

An attractive house will command a better price by several hundred dollars than the common kind, and it costs no more. Some very poor houses are built of the best lumber.

Good material does not make a good building unless understandingly used. A good builders price is very little in excess of the poorest and the satisfaction of having an attractive, convenient and well constructed house is well worth the difference.

H. E. ROSKAMP,
Contractor & Builder
