Old, but Able.

Enrico Dandolo was not elected doge of Venice until he was eighty-two years old, and he still retained the fire and vigor of his youth. He assaulted and took the city of Constantinople when he was ninety-two years old. himself displaying the gonfalon of St. Mark and animating his followers to the charge. Villars, the French general, in his eighty-fourth year, when crippled with wounds and disease, led a cavalry charge with the same light hearted contempt for danger displayed by him in his youth. The men who won distinction in high command during the mutiny against the English in India in 1857-8 were all of them well advanced in years. Sir Colin Campbell, the commander in chief, was sixty-five; Havelock was sixty-two. Sir Hugh Rose fifty-seven and Sir James Outram fifty-four. They stood the fatigue of field service in a tropical climate, with the thermometer at from 110 degrees to 119 degrees in the shade, as well as younger men.—London Answers.

Conversational and Talk.

In the fall of 1909 a wandering British philosopher who hailed from the University of Cambridge was a guest at various American colleges, and after he had gone back to his own place he published in a Cambridge review his opinion that "in America there is, broadly speaking, no culture. There is instruction; there is research; there is technical and professional training; there is specialization in science and in industry; there is every possible application of life to purposes and ends, but there is no life for its own sake." And he declared that "you will find, if you travel long in America, that you are suffering from a kind of trophy. You will not at first realize what it means, but suddenly it will flash upon you that you are suffering from lack of conversation. You do not converse; you cannot; you can only talk."—"Concerning Conversation," by Brander Matthews in Scribner's.

One of New York's Show Places.

The collector's office at the custom house is one of the show places of New York city. His ornate room was decorated from designs by Cass Gilbert, who drew the plans for the custom house, and Will Guernsey. This high ceilinged apartment, with its oak paneling, mural paintings of Dutch ships and Colonial scenes, and its great fireplace, cost upward of \$25,000. The ceiling of raised gold figures on a purple ground is a copy of an old Italian ceiling, with original figures, such as fish, tridents, boats and other appropriate subjects. The big fireplace, with wide hearth and high mantelshelf, is of gray stone. Below the shelf is inscribed the history of the first custom house, which stood on this spot.—New York Sun.

Fishing Snakes.

While fishing in the Fort St. George moat, at Madras, a correspondent of Country Life saw a snake fifteen inches long come out of the water with a fish in its mouth. On catching sight of the writer it dropped the fish and bolted, leaving the fish on the bank alive. On another occasion, while fishing in a reservoir near Ghazalbad, he again saw a snake emerging from the water with a fish in its mouth. This

snake was about twenty-four inches long, and on killing it he was able to identify the fish as a common species of Indian fresh water fish. Later on he saw a viper, nearly four feet long, lying in shallow water. The writer hooked it ashore with his tackle, upon which the snake attacked him, leaving a large yellow fang in his fishing rod.

Privileges of London.

London still retains its picturesque ancient rights and privileges, and as an instance it may be mentioned that whenever the ruling monarch pays a formal or state visit to the city it is customary for the lord mayor and sheriffs to meet the sovereign at the boundary of the ancient city, where he will enter. A sword is extended to the king (implying that permission to enter is given), who touches it and returns it to the mayor. By ancient right, upon the decease of the sovereign and until the proclamation of the new monarch, the lord mayor is nominal head of the state, with full authority and powers.

Indigestion and Constipation.

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's Tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers.
